

HP Elite x3 Lap Dock

HP Elite x3 sold separately. Apps sold separately, availability may vary.

Maximize your mobile Windows experience

Boost your HP Elite x3 productivity with Windows Continuum¹ and app virtualization software multi-screen and multi-app flexibility on the HP Elite x3 Lap Dock, which delivers a premium notebook experience with a nearly borderless 12.5" diagonal FHD screen, full-sized keyboard, and touchpad at a great value.

Cable optional

Go wired or wireless. Connect your HP Elite x3 to the Lap Dock wirelessly with Miracast over 802.11ac 2x2 Wi-Fi² for added flexibility, or use the included USB-C™ cable to simultaneously charge it from the Lap Dock while you work.

Multi-task with seamless multi-screen flexibility

Talk, text and run mobile apps on your HP Elite x3 and work with Windows and corporate apps using Windows Continuum¹ and your app virtualization software on an ultra-narrow bezel 12.5" diagonal screen with the productivity boost of a large keyboard and touchpad.

A premium notebook experience without the notebook price tag

Easily extend your HP Elite x3 with a large FHD screen and backlit, spill-resistant keyboard. The quiet, fanless, reinforced polycarbonate and stamped aluminum alloy design is ultrathin and ultralight to go wherever your day takes you.

Ready to present and accessorize

Show and share your work on an external display or projector³ with the micro HDMI connector, and add your accessories³ with two USB-C™ ports

Power through

Keep working with a generous 46.5 Whr battery, and get your HP Elite x3 back to full battery power with USB-C™ charging, even when the display is closed.

1. For multi-screen Continuum experience, the HP Elite x3 must be connected to the HP Elite x3 Lap Dock through a Miracast Wi-Fi or USB-C™ connection to the HP Elite x3 Lap Dock's integrated display.
2. When the HP Elite x3 and HP Elite x3 Lap Dock are wirelessly connected, the connectors on the Dock will have limited functionality. The USB-C™ ports will support input devices only (e.g. mouse). The headphone jack's receive function will work for listening to audio, but the microphone will not operate. The micro HDMI port will still work normally.
3. Sold separately.
