

# Enabling IT Innovation in the Public Sector

IT Investment Solutions for state and local governments

**HP Financial Services** can help customers find new ways to plan for, acquire, consume and adapt the technology needed for workplace transformation.

Each year, state and local leaders balance a desire to accomplish new objectives with dealing with several current challenges. Nearly every elected leader in state and local government faces pressures to modernize and advance public services while dealing with little to no growth in revenues. More than ever, technology drives new business and services goals, and citizens and employees expect similar capabilities and services in their public and private sector interactions.

IT Investment solutions from HP Financial Services provide you the capacity and flexibility to acquire advanced technology now, while offering convenient access to a regular refresh and upgrade program. You can align your expenses with your use of IT and avoid large, up-front cash expenditures. No need to delay your plans. You can provide a foundation for success for your department and government agency, while accomplishing more of your IT and financial goals.
