

Print only

HP LaserJet Pro M706n

Print like you work—fast and efficient. Produce professional-quality black-and-white documents and help manage your energy costs with an ultra-reliable, energy-efficient printer that performs at the speed of business. Print quickly on A4 and A3 paper—without breaking your budget. Easily print documents through your Ethernet network and from your smartphone, tablet, and notebook at work or on the go.

Printing performance to help you grow

- Speed through printing tasks at up to 35 pages per minute (ppm) in A4 and 18 ppm in A3.
- Control made simple—start printing right away with an easy-to-use control panel.
- Keep on printing—run out of supplies less often using cartridges that print up to 12,000 pages.
- Maximum paper capacity of 850 sheets with by adding 500-sheet optional tray. Save paper with optional automatic two-sided printing.

Certified to conserve

- Manage energy costs without sacrificing performance, using a **Energy Star certified** printer that meets strict energy-efficiency guidelines.
- Power-saving smarts—help save energy with HP Auto-On/Auto-Off Technology.²
- Small size, big value—make the most of your space with a printer that fits in tight places.

Print on your terms

- Extend your printing reach—easily set up, print, and share, using built-in Ethernet networking.
- Easily print from your smartphone, tablet, and notebook at work, home, or on the go; Mopria compatible.¹
- Add optional 802.11g networking to any of the models, to connect the printer directly to a wireless (Wi-Fi) network.

¹ Local printing requires the mobile device and printer to be on the same network or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See hp.com/go/mobileprinting for more details.

² HP Auto-On/Auto-Off Technology capabilities are subject to printer and settings. May require a firmware upgrade.

¹ Measured using ISO/IEC 24734, excludes first set of test documents. For more information see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.

² May require a firmware upgrade to be compatible, download at hp.com/go/support

³ Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Colour LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.

⁴ HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

⁵ Values subject to change. Power numbers are the highest values measured using all standard voltages. See hp.com/support for current information. Power requirements are based on the country/region where the printer is sold. Do not convert operating voltages. This will damage the printer and void the product warranty.

⁶ Acoustic values are subject to change. For current information see hp.com/support. Configuration tested: Print mono simplex using A4 paper printing at 31 ppm.

⁷ Replacement cartridge average declared yield ~12,000 pages based on ISO/IEC 19752 and continuous print. Actual yields vary considerably based on images printed and other factors. For more information, visit: hp.com/go/learnaboutsups
