HP Air Force DPI PSC-2016

FA8055-14-A-0001

Defend your network with the world's most secure printers.¹

Don't be a security statistic—get your printer defenses in order.

Unsecured printers can put your network at risk. The all-new HP LaserJet printers and MFPs come with industry-leading built-in security features that protect, detect, and recover—automatically.¹ New enterprise HP LaserJet printers with JetIntelligence provide the industry's deepest printer security.¹ Features like HP Sure Start with its self-healing BIOS, whitelisting, and runtime intrusion detection come built in. HP CAC enabled MFPs increase security with true FIPS 140-2 validated cryptographic modules to help secure email and secure PDF.

HP LaserJet Enterprise Printers and MFPs

Get the printer performance your agency demands with Ethernet and wireless networking options, easy printing from mobile devices, and advanced fleet management and security features.

Print only function—fast, consistent, and clear—virtually every time

HP LaserJet Enterprise M506dn Printer (Monochrome)

- Up to 45 ppm black²
- Up to 1200 x 1200 dpi
- Up to 150,000 monthly duty cycle³
- 512 MB memory installed, expandable to 1.5 GB
- Automatic duplex printing
- 650-sheet input capacity
- 10/100/1000 Base-T Ethernet
- Industry leading security features with HP Sure Start, Whitelisting, and Run-Time Intrusion Detection¹
- Includes standard 4-year on-site, next business day standard support, with disk media retention, if applicable⁴

HP Air Force DPI/PSC-2016

Standardize and consolidate your printing environment with HP for reduced TCO and predictable operational costs. HP offers printers at significantly lower costs than GSA pricing through the Air Force DPI Contract. Browse our offerings, and give an HP representative a call to discuss how to secure your network with HP printers and MFPs.

Don't forget to ask about even more aggressive pricing for volume purchases. HP offers desktops and laptops at significantly lower costs.

1. The world's most secure printers and deepest level of security: Based on HP review of 2015 published embedded security features of competitive in-class printers. Only HP offers a combination of security features for integrity checking down to the BIOS with self-healing capabilities. Available on the HP LaserJet M527, M506, M577 and as an upgrade on the M552, M553, M604, M605, and M606. Some features will be made available as a HP FutureSmart service pack update on selected existing Enterprise printer models.

2. Measured using ISO/IEC 24734, excludes first set of test documents. For more information see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity.

3. Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other HP LaserJet or HP Color LaserJet devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups.

4. HP Service levels and response times for HP Care Pack Services may vary depending on your geographic location and product model. Service starts on the date of hardware purchase. Restrictions and limitations may apply. For details, visit: hp.com/services/carepack.

5. Scan speeds up to 60 pages per minute (ppm)/120 images per minute (ipm) measured at 200 ppi (black and white, grayscale, color) and 300 pixels per inch (ppi) (black and white, grayscale); speeds up to 45 ppm/90 ipm measured at 300 ppi (color); used A4 sized paper.
