

# The dock with a screen.

Plug in, connect, and get to work.

HP EliteDisplay S231d 23-in IPS Notebook Docking Monitor

## Connectivity made simple.

Work can be done on the fly, or on the road - but when that road leads to a desk - make the most of it.

### Create an instant workspace.

Easily connect your notebook with 2 simple cables<sup>1</sup>.

Boost productivity with a dual screen view.

Collaborate with integrated webcam and speakers.

## Less Cable Clutter.

### Straight-through power.

Power and charge most HP notebooks directly from the display with HP Smart AC Technology<sup>2</sup>, and enjoy video via USB for quick setups - a great choice for open floor plans and shared workspaces.

### Connectivity made simple.

Collapse a desk full of docking stations and power cables into one efficient USB 3.0 hub.

<sup>1</sup> Includes (1) USB 3.0, (1) VGA cable, (1) DisplayPort cable

<sup>2</sup> Pass through power only for HP Commercial Notebooks above 90W.
