

Brief

# Provide exceptional care with exceptional computing

## HP 800 Series Desktops for Healthcare

Treat patients efficiently and securely with durable, user-friendly HP 800 Series Desktops.

### Highlights for healthcare

Enhanced security with multi-factor authentication

Durability designed for a demanding environment

Serviceable SSD and HDD on all form factors for hassle-free upgrades

Whether it's in a hospital or private practice, healthcare technology can have a great impact on the overall patient experience. In order to provide the very best care, it is imperative that physicians and medical staff work with PCs that are efficient and protect patient information.

HP 800 Series Desktops are designed to do just that. In addition to top security solutions and easy serviceability, these PCs also offer world-class manageability with integrated solutions like Intel® vPro™,<sup>1</sup> Windows 10 Pro,<sup>2</sup> and HP Common Core BIOS which enables convenient management of your entire fleet of HP devices. They have also passed MIL-STD 810G testing<sup>3</sup> and have endured 120,000 hours of performance trials during the HP Total Test Process.

## HP EliteDesk 800 Tower and Small Form Factor

Experience top-notch productivity plus industry-leading reliability, security, and manageability.

### Serious security

Help protect your PC and maintain maximum uptime with a suite of solutions that help stop security breaches, including HP BIOSphere<sup>4</sup> with SureStart.

### Easy conferencing

Enable easy communication between medical staff, patients, and caregivers with an optional full-sized HP Conferencing Keyboard<sup>5</sup> and noise-cancelling HP Wired Headset.

Designed to stand up to the rigors of any healthcare environment after enduring

**120,000 hours**

of performance trials during the HP Total Test Process.

## HP EliteDesk 800 65W Desktop Mini

With a full line of mounting, expansion, and security accessories,<sup>6</sup> the HP EliteDesk 800 65W Desktop Mini can be used as a workstation on wheels and is a perfect fit for tight spaces.

### Security designed to deter downtime

Get maximum uptime and help ensure that patient information is secure with HP Sure Start with Dynamic Protection, HP Client Security Suite's<sup>7</sup> data protection, and multi-factor authentication.

### A low TCO pro

Save on total cost of ownership with a desktop that consumes less than 8W of power at idle.

### Create a compact, efficient workspace

Attach your HP Desktop Mini directly behind select HP EliteDisplays.<sup>8</sup> Keep small workspaces tidy with an integrated power supply, cable management, and productivity features like an HD webcam, microphone, speakers, and easy-access hot keys.

## HP EliteOne 800 23" NT AiO

The HP EliteOne 800 is ready to deploy in demanding clinical environments, with manageability, security, collaboration technologies, and high resolution for ease of reading clinical notes and patient records.<sup>6</sup>

### Reliably secure

Secure patient information with hardware and software tools like HP BIOSphere with Sure Start's customizable BIOS-level passwords.<sup>1</sup>

### Ready for upgrades

Make expansion and upgrades a snap with a rear access panel for tool-less access to critical components.

<sup>1</sup> Some functionality of vPro, such as Intel® Active Management Technology and Intel Virtualization Technology, requires additional third party software in order to run. Availability of future "virtual appliances" applications for Intel vPro technology is dependent on third party software providers. Microsoft Windows required.

<sup>2</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

<sup>3</sup> MIL STD 810G testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions. Damage under the MIL STD test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

<sup>4</sup> HP BIOSphere features may vary depending on the PC platform & configuration.

<sup>5</sup> Sold separately or available as a configurable option.

<sup>6</sup> Sold separately or as an optional feature.

<sup>7</sup> Requires Windows.

<sup>8</sup> Displays sold separately, mounting requires HP PC Mounting Bracket for Monitors, sold separately. See product QuickSpecs for exact PC compatibility.
