

HP Preventive Maintenance Support Service

For HP Latex 500 series Printer

Overview

HP Preventive Maintenance service is a comprehensive support solution that helps you maintain your HP printing equipment for maximum productivity and utilization and sustained top print quality.

This document describes the guidelines for performing preventive maintenance for an HP Latex 500 series Printer for two print cycles: SMK3 printing cycle and SMK1 printing cycle.

HP Latex 500 series Printer SMK3 Preventive Maintenance

Procedure guidelines and activities

This preventive maintenance depends on the ink liters consumed and the kilometers traveled by the printhead carriage. The SMK3 preventive maintenance procedure should be performed by an authorized service provider in accordance with the instructions published by HP.

Following are the steps involved:

- **Step 1** - Change and calibrate the provided parts as explained in the HP Latex 500 series service manual
- **Step 2** - Clean and lubricate the carriage rail
- **Step 3** - Clean the encoder strip, the OMAS, the print platen and the service station cartridge rods
- **Step 4** - Clean the curing module nozzles and pressure chamber

SMK3 printing cycle

Required personnel

One HP certified service operator

Estimated time¹

Three hours

Required tools

Standard tools

Frequency of procedure²

110 ink liters or 3000 scan axis kilometers, 1-2 years for an average user³

Kit description and content

HP Latex 500 series Printer Service Maintenance kit SMK3 (M0E29-67087)

Part Number	Content	Qty
5182-6079	Carton 400x350x340	1
9223-0658	STRPG-NM POLYP .5-IN-THK	2
9223-1023	WRAP KFT-PPR .004-IN-THK 27-IN	1

Q6651-60081	Lubrication Felts Kit SERV	1

HP Latex 500 series Printer SMK1 Preventive Maintenance

Procedure guidelines and activities

This preventive maintenance depends on the number of scan axis cycles and ink liters consumed.

The SMK1 preventive maintenance procedure should be performed by an HP authorized service provider in accordance with the instructions published by HP.

Following are the steps involved:

- **Step 1** - Change the provided parts as explained in the HP Latex 500 series service manual
- **Step 2** - SMK3 activities

¹ The estimated time may vary based on the status of the machine or unexpected issues.

² Quantities are approximate and depend on usage. They are based on HP recommended best practices.

³ Average user 5-8L/month

SMK1 printing cycle

Required personnel

One HP certified service engineer

Estimated time¹

Six hours

Required tools

Standard tools

Frequency of procedure²

4 million cycles of the scan axis, 5-10 years
for an average user³.

Includes the SMK3

Kit description and content

HP Latex 560 series Printer Maintenance kit SMK1 (M0E29-67085)

Part Number	Content	Qty
9223-0658	STRPG-NM POLYP .5-IN-THK	2
