Recycling Original HP toner cartridges through HP Planet Partners

Original HP Supplies were designed with the environment in mind. HP makes it easy to conserve resources and paper when printing. And when you are done, we make it easy and free to recycle.¹ Recycling by the pallet is an efficient way to reduce your environmental footprint: efficient shipments mean less fuel consumption and CO2 emissions.

The HP Planet Partners program, available in more than 60 countries and territories around the world, offers multiple options to return and recycle HP cartridges. HP cartridges recycled through the HP Planet Partners program are never refilled, resold or sent to a landfill.

All HP cartridges returned to HP Planet Partners go through a multiphase recycling process that separates and refines the raw materials for use in new Original HP cartridges and everyday products.² Since 1991, more than 735 million HP cartridges, 3.7 billion recycled plastic bottles and 70 million recycled hangers have been used as raw material in the manufacturing of 3.5 billion new HP cartridges. Today more than 80% of HP ink cartridges and 100% of HP toner cartridges are made with recycled material.³

Here's how to take part:

1. **Collect empty Original HP toner and ink cartridges.** You must have at least 75 Original HP toner cartridges or 2,000 Original HP ink cartridges to recycle by the pallet. Only HP cartridges will be accepted. Please do not send non-HP cartridges, warranty returns, or refilled/remanufactured cartridges.

2. **Prepare your shipment.** Separate Original HP toner cartridges from Original HP ink cartridges.

For HP ink cartridges: Remove all packaging, place in plastic-lined Gaylord or other bulk-collection box provided by you or free boxes provided by HP,⁴ shrink-wrap, and palletize. Generally, 36 to 48 boxes will fit on a pallet.

For toner cartridges: Remove all packaging, place in plastic-lined Gaylord or other bulk-collection box provided by you or free boxes provided by HP,⁴ shrink-wrap, and palletize. Generally, 8 -12 boxes will fit on a pallet.

Note: Pallets must be separated by ink and toner. Build pallets of either ink or toner cartridges and schedule each request separately.

3. **Request a pickup** at hp.com/go/palletrecycling

4. **Receive an email confirmation of pickup request.** Within a few days you'll receive an email that includes a bill of lading to print, sign, and provide to the courier at the time of pickup.

² InfoTrends, 2016 North America Supplies Recycling study, commissioned by HP. Findings are based on average results of interviews with 9 remanufacturers, 3 NBC manufacturers, 3 brokers and 2 distributors. For details, see hp.com/go/NA-2016InfoTrends

³ 2016 Four Elements Consulting LCA study, commissioned by HP, compared Original HP 80A and 83A monochrome toner cartridges with a sample of remanufactured alternatives across eight environmental impact categories. For more, visit hp.com/go/NA-LJLCA-2016. The LCA leverages a SpencerLab 2016 study, commissioned by HP, comparing Original HP LaserJet toner cartridges with two brands of non-HP toner cartridges sold in NA. For details, see spencerlab.com/reports/HPReliability-NA-RM2016.pdf

⁴ Need free boxes? Go to hp.com/recycle to order boxes that hold approximately 20 HP Original toner cartridges or boxes that hold approximately 300 HP Original Ink cartridges.
