

Family data sheet

HP Indigo 7900 Digital Press L1 Conversion Course

Blended learning by HP for operators previously certified on HP Indigo
7800 Digital Press

October 2016

HP MyRoom - The software package used for the webinar

Operators are already familiar with this tool as it is also used for Remote Support.

“Blended learning by HP makes it a lot easier to learn a lot of different things, because there’s training material in different formats available right when I need it.”

– Jevgenija Dmitrijeva

For operators previously certified on HP Indigo 7800 Digital Press, the HP Graphic Arts Training Services offers an L1 Conversion Course to HP Indigo HP7900 Digital Press in a blended learning format.

Start

Register for the course by contacting the HP Graphic Arts Training Center: graphicartstrainingcenter@hp.com

The HP Graphic Arts Training Center will:

- Verify that the operators were previously certified
- Send an HP MyRoom invitation
- Send several links for preparatory work
- Check the HP Myroom setup with you if needed

Course structure

Step 1 - Self-learning

The operators will be requested to review several online modules prior to attending the webinar. This is mandatory as the webinar builds on previously acquired knowledge. Failure to do the preparatory work is a reason to cancel the webinar.

Step 2 – Attend a webinar using HP MyRoom

The next step is to attend a webinar using HP MyRoom. The webinar consists of three sections:

- Introduction
- Technical topics: SPM, Digital Ink Priming, New Hardware, Software, and HP Print Care
- Assessment
