

HP Enrollment Service for Chrome Devices

Enabling teachers and staff to focus more on the content of their students' education

Service Overview

HP Enrollment Service for your Chromebook PCs is designed to assist you in migrating and rolling out new PCs throughout your organization. We provide planning, setup, and management of end-to-end custom rollouts and deployments. Your PCs will be up and running quickly because this service ensures they will arrive pre-enrolled and activated in your Google console.

To better support our HP deployment projects, we have optimized our approach to focus on the tasks required for success. With our Chrome Device Enrollment Service, your devices are enrolled into your Chrome Device Management account at the factory and arrive ready to go.

HP is committed to helping bring efficient education into the future through the integration of Google Chromebooks. Drive success by integrating systems quickly and seamlessly into your environment while also identifying areas where cost control opportunities are available.

Scope of Work

- Un-box all PCs and thoroughly inspect them for any physical damages or blemishes. Identify and report any system issues/DOA
- Update the Chrome OS to the latest version
- Enroll the Chrome OS devices into your customer's domain by performing enterprise enrolment and validation
- Perform wireless network configuration for the network using WPA or WPA2 with pre-shared key authentication

- All configurations undergo a comprehensive Quality Control process
- Repackage all equipment and prepare the PCs for shipment/delivery to the final location per the required schedule.

Service Benefits

- Faster setup that allows users to log in easily
- Automate and reduce on-site processes dedicated to setup/unboxing new units
- Ensure policies are deployed at first boot across Chrome devices without exception

What It does

- Provision and enroll Chromebooks at the time of shipment to customer's domain
- Eliminate manual provisioning process of CMC license to Chromebook
- Apply domain policies at first log in for users and students

Service availability*

Asia Pacific

*Service availability may vary by country/region.

Customer Responsibilities

The below activities are outside the scope of this service and will be performed by the Customers:

- Purchase a Chrome Management license
