

YOUR PC IS THE CENTER OF YOUR WORKING LIFE

It has to be secure; it has to be accessible; it has to be ready to perform.
The HP WorkWise app gives you the power to make sure it is.

Now you can use your smartphone to:

Improve security

Monitor performance

Provides proximity-based auto lock/unlock

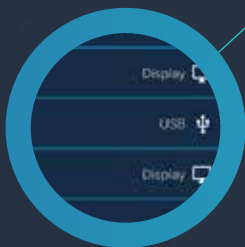

Provides battery charge and cycle life status

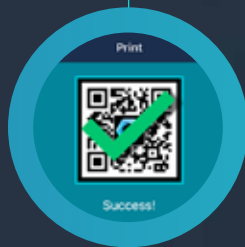

Alerts if your PC is moved or unplugged with tamper protection

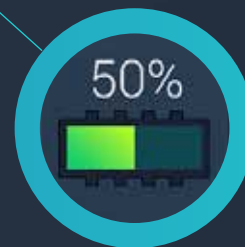

Monitors PC temperature and lets you put the PC to sleep or hibernate

Alerts if there are inputs and connections, like USB devices

Downloads printer drivers directly to your PC for simple printing on the move

Reports on memory use and available storage capacity

Print remotely
