HP 32U Essential Charging Cart

Secure storage and charging for classroom notebooks and Chromebook™ notebook computers.

Keep your fleet of up to 32 notebooks and Chromebook™ notebook computers charged and ready to go at the start of each day with the affordable, durable HP 32U Essential Charging Cart, a lockable rolling cart that securely houses and charges your devices.

Streamlined charging

Recharge your devices to full power from one standard wall outlet. LED indicators deliver easy-to-read status, and built-in venting keeps devices cool. Power extra devices such as a projector or display outside the cart from the cart's three auxiliary outlets.

Flexible design

Use the removable, smooth-edged shelves to customize your cart for storing other devices and equipment when you don't need all 32 slots for notebooks and Chromebook™ notebook computers. Keep device power cords out of the way with the storage clips.

Integrated locking

Secure your notebooks and Chromebook™ notebook computers, each up to 15" diagonal, in the main compartment behind lockable doors and covers, and your IT equipment and power adapters in a second, separate, lockable compartment.

Specifications
