

Brief

Optimize the customer experience with the HP Elite x3 Mobile Retail Solution

Retail versatility in your pocket

Sales associates can be more productive on the floor and managers can be more agile in the backroom and office with the HP Elite x3 Mobile Retail Solution, a Windows® handheld and integrated 3-in-1 barcode scanning solution that switches to a full PC experience.¹

Scanning where you need it

Help associates work smarter with an easy-to-carry scanning solution that accepts printed, onscreen, and even hard-to-read barcodes. The HP Elite x3 Mobile Retail Solution provides full symbology support for the store floor, receiving dock, or outdoor ticketing.

Deliver quality customer service with real-time access to product information and pricing using fast, accurate scans up to 60 frames per second—indoors and outdoors. Easily scan items on the move thanks to integrated motion-tolerance.

Agile for every task

Check pricing and locate inventory in other locations on the high-resolution 5.96" (15.14 cm) diagonal Corning® Gorilla® Glass 4 screen. The super sensitive touch driver even works with gloved hands.²

The HP Elite x3 Mobile Retail Solution switches easily from a lightweight handheld to a PC-like experience for more complex managerial tasks and desktop applications. Just dock and connect to a large display, keyboard, and mouse—without restarting or saving your work. Communicate with teams and perform scheduling while on the floor or on the road with processing power that can also run your business and third-party retail applications.

Size matters

Give sales associates and managers a compact, yet powerful PC-quality handheld scanning solution that's packed with all of the essential features and functionality yet none of the extra bulk and weight. Slim and lightweight, the HP Elite x3 is easy for associates and store managers to carry throughout the day and place in a pocket or apron while not in use.

Power through peak times

Keep working with a long-life battery and support for wireless charging³ and dual-mode charging. Get reliable network and device connectivity on the floor and on the move from integrated LTE,⁴ Wi-Fi,⁵ and Bluetooth®. Ready for hot, humid kitchens or freezing warehouses, the HP Elite x3 is designed to pass MIL-STD 810G,⁶ has been drop tested at 1.83 m,⁷ and is IP67 rated⁸ to resist dust and water.

Secure manageability and value

Simplify IT management with a solution that integrates into your existing Windows® environment with enterprise manageability features. The HP Elite x3's modular design allows separate part replacements, helping you to reduce costs. Avoid regularly changing passwords with enterprise-grade security features including integrated iris and fingerprint authentication. Get robust app support with HP Workspace,⁹ which virtualizes 32- and 64-bit desktop applications for use when the HP Elite x3 Mobile Retail Solution is docked, without requiring dedicated infrastructure or personnel.

HP Elite x3 Mobile Retail Solution scenarios

Mobile POS/Line-busting

- Decreased wait times and walk outs with a line-busting tool critical for high foot-traffic areas
- One-handed device with carrying accessories—fits in an apron pocket
- Integrated barcode scanning capabilities for adding items to cart
- Paired third party mobile payment terminal¹⁰ captures payment using all major methods

Mobile Manager

- Small form factor is ideal for non-payment activities carried out by managers
- Integrated barcode scanner capabilities for inventory management and price check
- Bright, clear display for viewing operations data and employee info
- Desktop dock compatibility to connect device to a suite of productivity peripherals in the back office

Continuum (Mobile to Fixed)

- HP Elite x3 can serve as the primary PC for some, with a scalable application, depending on the display size
- Desktop dock compatibility connects the HP Elite x3 to a suite of POS peripherals, scaling to a fixed POS solution or manager's workstation¹
- Enough computing power to run Microsoft Continuum for a traditional PC desktop experience when docked
- Run full-featured desktop applications with available HP Workspace

1. Optional dock required and sold separately. Peripherals sold separately.
2. Supports gloves type 101.
3. HP Elite x3 Wireless Charger sold separately.
4. GSM only. LTE requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, in all regions.
5. Wireless access point and Internet service required. Availability of public wireless access points limited.
6. MIL-STD testing is not intended to demonstrate fitness for U.S. Department of Defense contract requirements or for military use. Test results are not a guarantee of future performance under these test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
7. HP Total Test Process Test results are not a guarantee of future performance under these test conditions. Damage under the test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
8. IP67 test results are not a guarantee of future performance under these test conditions. Damage under the test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.
9. HP Workspace license required. Requires the HP Elite x3 to be docked with the HP Elite x3 Desk Dock or connected to the HP Elite x3 Lap Dock, each sold separately or as part of a solution bundle. Corporate application must be licensed on corporate network for virtualization.
10. Sold separately.
