# Always business-ready—on your terms

Ready Deploy Service

Service overview

Installing and deploying new devices for your organisation can be overwhelming, and a time- and resource-consuming affair. Ready Deploy Service by HP offer your organisation a seamless deployment solution that gets your devices business-ready right out of the box. Let HP experts handle the heavy lifting for you with a streamlined suite of logistics, installation, and deployment services. Whether it's delivering end user-ready devices to specified locations, or installing new devices, we will get your business up and running quickly—on your terms.

For an enhanced deployment experience, there's Ready Deploy Plus Service. You will get a single point of contact to handle your large-scale device deployment from end-to-end. Plus, our onsite HP professionals can ensure seamless migration of existing data, secure and professional disposal of your retiring assets and realise the market value of your old devices. With our 30-day post-deployment support, you can now focus on what's truly important—your core business.

Get your new devices up and running quickly

Let HP professionals install and set up new devices for your end users to get their systems up and running fast – and to make large-scale deployments easier to manage.

Streamline new device deployments across your organisation

Deploying new devices across your organisation is no easy feat. With HP Logistics Services, we handle all the key details for you, from coordinating deliveries, to unpacking your systems and removing the packaging materials.

Seamless third-party hardware integration

Integrating hardware and software tools can be a hassle. With HP onsite experts, we ensure that your HP PCs are seamlessly and efficiently integrated with third-party hardware and HP accessories, and installed with the latest HP software and tools.

Migrate data the easy way and keep your end users productive*

Not being able to transfer existing data and configurations to new devices with ease can lead to lost productivity. Let HP professionals migrate data from existing devices to new PCs so that your users can stay focused on their work.

Let HP handle your device disposal*

HP can take charge of the asset retirement process, from hard-drive removal or destruction, recycling of hardware[1] in compliance with applicable legislative practices and environmental regulations, to realising the market value of your old devices through reuse[2].

Single point of contact* for all your deployment needs

You will get a single point of contact to help you plan, schedule, and coordinate logistics from start to finish. Leave deployment to us and focus on your business.
