- Kickstand
- SSD

For authorized technicians

- Battery
- CPU
- Fingerprint sensor
- Memory
- NFC
- Panel
- PC and system boards
- SIM card tray
- Speakers
- Webcams

1. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, and/or software to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.windows.com>. 2. Full high-definition (FHD) performance requires FHD content. 3. Windows 10 / MM14 battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See bapco.com for additional details. 4. Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance. 5. HP Sure Start Gen3 is available on HP Elite products equipped with 7th generation Intel processors. 6. HP WorkWise smartphone app will soon be available as a free download on the App Store and Google Play. 7. Serviceable by HP Support, HP Certified technicians, HP Authorized Service Providers, or participants in HP's Self Maintainer program. See <http://partner.hp.com/SMprogram>.
