

HP Linear Barcode Scanner

The HP Linear Barcode Scanner has everything you need in an entry level scanner—affordability, great functionality, and a comfortable design.

Take scanning to the next level with a handheld scanner designed to read most common 1D Barcodes, discern poorly printed or damaged barcodes, and successfully read codes from mobile devices so retailers can accept coupons and loyalty offers sent via e-mail or text message and displayed on a customer's cell phone.

Included hands-free presentation stand allows associates to easily switch between handheld mode and presentation scanning mode without slowing the transaction so associates can be more productive at the checkout.

Visual and audible good read confirmation of a barcode allows store associates to be confident in the accuracy of the transaction and focus on delivering an efficient customer experience.

Reliable form factor is well-built for the wear and tear of retail environments and includes a scratch-resistant tempered glass exit window designed for continuous use that ultimately helps extend the barcode scanner's useful life.

Get up and running quickly with easy, single USB cable connectivity (cable included) and software utility or barcode(s) setup.

Specifications

Dimensions (H x L x W)	Scanner: 2.6 x 6.7 x 2.8 in; Cable: 6.5 ft (Scanner: 0.66 x 1.71 x 0.71 cm; Cable: 1.9 m)
