

Chrome Device Management Enrollment Service

Part of HP Configuration Services

Service benefits

- Faster, easier set-up means you can just log-in
- Automate and reduce onsite set-up and unboxing of new units
- Ensure policies are deployed at first boot-up across all Chrome devices

Service highlights

- Provisions and enrolls Chromebooks at the time of shipment
- Eliminates manually provisioning the Chrome Management Console license to Chromebook
- Applies domain policies at first log-in

Service overview

Deploy Chrome™ devices of any size with almost zero IT labour requirements. Chrome Device Management Enrollment Service is a factory service for Chromebooks™ and Chromeboxes™ that enrolls your devices into your Chrome Device Management account at the factory. This way, they arrive at your door ready to go.

Feature	Specification
Reduces work for IT staff	All devices and user policies are pre-configured prior to delivery so your IT team doesn't have to worry about tedious manual unpacking and enrollment of each device prior to deployment. End users can simply log-in to their own account and get to work. Plus, devices can be shipped directly to end users without ever being touched by onsite IT.
Increased security and productivity	Devices arrive enrolled into your domain and are managed from the start, preventing them from being used without policy management and eliminating the need to wipe and re-enroll devices due to user error during enrollment.
Improved end user experience	Provides a consistent end user boot experience with ready-to-go devices. Users simply log-in to their Google account, and all necessary apps and settings are available.

Delivery specifications

- All Chrome devices that are managed with Chrome Management Console must be enrolled into the console.
- Enrollment is a manual process requiring the Chrome device to be unboxed, booted up, and connected to the internet. A special log-in process is used to complete enrollment.
- All of the steps of Chrome Device Enrollment Service will be completed in the factory before the device is shipped directly to the customer. These steps include updating Chrome OS™ on the device if needed, enrolling the device in your domain, and validating policies.
- Devices can be shipped directly to the end user without assistance from your IT team.
- Devices are shipped configured with the following:
 - Latest channel-stable OS version
 - Preconfigured Wi-Fi networks
 - Remotely managed IT policies
 - Required applications
 - Recommended bookmarks
 - Preset homepage

Customer responsibilities

Information exchanged under this Agreement will be treated as confidential if identified as such at disclosure or if the circumstances of disclosure would reasonably indicate such treatment. Confidential information may only be used for the purpose of fulfilling obligations or exercising rights under this Agreement, and shared with employees, agents or contractors with a need to know such information to support that purpose. Confidential information will be protected using a reasonable degree of care to prevent unauthorised use or disclosure for 3 years from the date of receipt or (if longer) for such period as the information remains confidential. These obligations do not cover information that: i) was known or becomes known to the receiving party without obligation of confidentiality; ii) is independently developed by the receiving party; or iii) where disclosure is required by law or a governmental agency.

Each party shall comply with their respective obligations under applicable data protection legislation. HP does not intend to have access to personally identifiable information in providing services. To the extent HP has access to personal identifiable information stored on a system or device of yours, such access will likely be incidental and you will remain the data controller of personal identifiable information at all times. Any personal identifiable information HP has access to will only be used for purposes of delivering the services ordered. You are responsible for the security of your proprietary and confidential information.

Service limitations

- Applies only to Chrome OS devices
- Must accompany a Chrome Management Console license
- Services must be received/executed in the country of ordering.
- You may cancel your order for this service prior to appointment booking/delivery at no charge.
