

# Sustainability: Fast Facts

Our Technology Renewal Centers (TRCs) in Andover, Massachusetts and Erskine, Scotland help extend the life of technology whenever possible.

At both facilities, we manage large volumes of technology daily, including enterprise servers, storage and networking equipment, as well as PCs such as laptops and desktops.

**55 million lbs**

of technology was processed at HP Technology Renewal Centers around the world in 2016.

HP Financial Services goes beyond just recycling—we take pride in our ability to maximize our customers' IT investments by putting equipment with value back into the world as a working asset for other customers.

**76%**

of technology units that entered HP Technology Renewal Centers in 2016 were given new life.

Our global expertise and understanding of the requirements and options for safe recycling can help our customers and partners do the right thing.

**13 million lbs**

of e-waste was safely and responsibly recycled by HP Financial Services in 2016.

**160+ pieces**

of legislation for environmentally responsible IT removal and recycling must be adhered to by companies.

**42 million lbs**

of e-waste was prevented by HP Financial Services through updating, remarketing and reselling previously outdated technology.

**2 million**

PCs, devices and electronic units were resold by HP Financial Services in 2016.

At HP Financial Services, we pay careful attention to global, regional and corporate standards for asset removal and recycling. Not just today, tomorrow, or on Earth Day—but every day.
