

# HP Device as a Service

## Analytics and Proactive Management

### Key benefits

- Analytics and insights that help you better manage device fleets and proactively optimize performance.
- Enhanced and Premium plans include an experienced Service Agent to proactively monitor and address issues before they occur.

**DaaS Analytics and Proactive Management capabilities are available exclusively through DaaS agreements via HP or an Authorized Reseller.**

### Overview

Whether it's deploying new technology or making updates, IT managers have a lot on their plates. Often, as their bandwidth gets shorter, the amount of downtime grows longer.

HP Device as a Service (DaaS) plans with Analytics and Proactive Management capabilities provide a solution to this problem in a premium service experience. Predictive analytics help you boost productivity, while regular reporting and a consolidated dashboard help you track usage and stay on top of updates. Now, you can leave the monitoring and support of your devices in the capable hands of our proactive agents. Their expert assistance and cutting edge technology tools help to proactively anticipate problems and fix them before they even occur—freeing up your IT manager to focus on other more pressing issues.

### IT and user advantages

#### [Get insightful and actionable analytics to improve productivity](#)

Improve IT efficiency with analytics,<sup>1</sup> proactive management,<sup>2</sup> and inventory and health monitoring that identify and predict alerting conditions.

#### [Optimize performance for your entire fleet](#)

Put asset inventory and health monitoring on auto-pilot. With HP DaaS, you can prolong the life of your investments and be alerted while we take preventative action before there is a problem.

#### [Have a security guard that's always on duty](#)

Get multi-layered, enterprise-class security from malware protection, real-time policy violation and firewall, and antivirus disruption alerts, plus find, lock, and erase.<sup>3</sup>

#### [Offload IT tasks so you can focus on what impacts the business most](#)

Let HP take care of day-to-day management tasks and reduce time supporting users so you can focus on projects that move your business forward.

## Delivery specifications

- HP's proactive Service Agents are available Monday–Friday (excluding HP holidays) from 6:00 am–6:00 pm MST in the U.S. and 8:00 am–6:00 pm CET in EMEA. For the APJ region, they are available 24 hours a day, 7 days a week.
- Devices managed by HP DaaS will have a data agent installed to collect asset and event information related to the device. User-sensitive data including credentials, files, content, and personal data will not be captured. Collected data will be stored in a secure cloud repository.<sup>7</sup>
- HP Service Agents provide proactive support to resolve issues before they occur, as well as technical assistance via email.

## Device coverage

- HP DaaS Analytics and Proactive Management provides easy management for multiple device types and operating systems including:
  - PCs including desktops and notebooks running Windows 7 Service Pack 1 (SP1), Windows 8.1, or higher.
  - Tablets running iOS 8 or higher, Android™ 4.0.3 or higher, Windows 8.1 or higher (x86 or Intel platforms), and Windows 10 Mobile (ARM platforms).
  - Smartphones running iOS 8 or higher, Android™ 4.0.3 or higher, and Windows 10 Mobile.
