

# HP Fast-dry Black Print Cartridge

Achieve high-speed printing with superior print quality on porous media

## Target customers

Ideal for companies requiring fast drying ink on porous substrates.

## Applications

- Mail addressing
- Product identification coding and marking

## Key highlights

- An Original HP ink cartridge designed to maintain consistent, reliable performance
- Easy to replace, disposable print cartridge keeps print quality high and lowers printer maintenance costs
- Dark black, high-optical density and fast drying ink for use in high-speed applications
- High-resolution, 600 dpi printing on uncoated substrates

HP Fast-dry Black ink is a water-based ink that dries fast, which translates into faster production, higher output and lower cost. It prints sharp, dark black text with high-optical density in a single pass; offers excellent print quality for high-resolution, easy-to-read barcodes; and is suitable for porous substrates.

## Print fast with high-optical density in a single pass

Maintain high quality and productivity while printing fast with this high-performance, dark black, high-optical density Original HP ink. Achieve consistent, high-resolution 600 dpi print quality with cost-effective HP Thermal Inkjet technology.

## Maintain consistent, reliable printing

With an integrated cartridge design, you get a fresh printhead with each cartridge replacement, enabling high system reliability without expensive maintenance and servicing. You can print faster and still retain sharp, dark black text and high-optical density.

## Achieve operational efficiency

Save time, improve productivity, and lower operating costs with HP Thermal Inkjet technology self-contained cartridges. The proven HP Thermal Inkjet technology enables low-cost, efficient ink usage, and the cartridges can be quickly and easily replaced by operators to eliminate time-consuming and routine maintenance.

## Technical specifications

<b>Ink type</b>	Original HP pigment ink
<b>Resolution</b>	Up to 600 dpi
<b>Nozzle count</b>	300
<b>Print swath</b>	12.7 mm (0.5 in)
<b>Maximum firing frequency</b>	Up to 12 kHz
<b>Average drop volume</b>	30 pl
<b>Average delivered ink</b>	42 ml
<b>Number of electrical interconnect pads</b>	52+
<b>Operating conditions</b>	Temperature: 10° to 40°C Humidity: 10 to 80% RH
<b>Shipping/storage conditions</b>	Altitude: up to 5000 meters Cartridge orientation: Stored on its side, horizontal
