

CARTI

Arkansas cancer center chooses HP MPS for dispersed sites

Business Need

- Gain management control over diverse printer deployment across multiple urban and rural sites
- Engage HP Managed Print Services

HP Solution

- Serve print needs of multiple sites across 11 cities
- Equip 520 employees with right-sized, right-featured printers
- Supply printers with high-quality, high-efficiency Original HP toner

Client Outcome

- Keep clinics running efficiently for high-quality patient care
- Cover urban and remote rural sites with one contract
- Leverage usage data to continuously improve deployment and processes

CARTI

“The biggest benefit we receive from HP MPS is the analytics – data that can help us pinpoint where we need to move or replace printers and how to optimize our processes.”

– Jim Carter, director of information technology, CARTI
