# Product naming for HP Managed printers and MFPs

HP LaserJet and PageWide Managed products use a unique alphanumeric code to identify the product's functionality, series, model specifications, and bundle. A similar system is used for HP LaserJet and PageWide supplies.

Decode HP LaserJet and PageWide Managed product names

HP Color LaserJet Managed MFP E67550dh

Color and brand		Functionality	Series	Model number		Bundle indicator	
Descriptor for color	**None:** Monochrome device[1] **Color**: Color device[2]	**None:** Single function **MFP:** Print, copy, scan **Flow MFP:** Workflow features[3]	E-series P-series	First digit	**5:** Small work team **6:** Workgroup **7/8:** Department	c	Capture
						d	Duplex
						f	Fax
						h	Hard disk drive
Product brand	**LaserJet:** Laser printing technology **PageWide:** Ink printing technology			Second and third digits	**0–24:** Mono **25–49:** Mono MFP **50–74:** Color **75–99:** Color MFP	n	Network connectivity
						m	Managed (used with 3-digit model numbers only)
						s	Stapler/stacker
				Fourth and fifth digits (if present)[4]	Print speed (in pages-per-minute)	t	Extra paper tray
						w	Wireless
						x	Single Function Printer (SFP) with network, duplex, and extra paper tray
						xh	SFP with x features plus hard disk drive
						x+	SFP with xh features plus High-Capacity Input (HCI) (vs. paper tray)
						z	MFP with more than 2 features (most, but not all Flow bundles include this)[3]
						z+	MFP with more than 2 features for additional bundles with same model number

[1] Generally, if there is no "Color" descriptor in the name, it denotes a monochrome HP LaserJet printer or MFP.
[2] All HP PageWide printers are color-capable, but not all PageWide printers have the "color" descriptor in the name.
[3] Flow models are indicated by the word "Flow" in the name, not by the identifier "z" or "z+".
[4] Some managed SKUs use three-digit model numbers only.

HP Managed LaserJet and PageWide supplies naming

Managed HP PageWide cartridge naming examples[5]

Cartridges for managed HP PageWide printers and MFPs use a Selectability Number, helping customers identify the correct supplies for their product. Selectability Numbers are in addition to HP standard part numbers and do not correlate. For example, Selectability 976YC is P/N L0S29YC.

HP Contract PageWide cartridges have a two-alpha character suffix ending in "C" which signifies a "contractual" product. Black, Cyan, Yellow, and Magenta are differentiated by packaging descriptions.

Brand	Selectability	Alpha	Color	Product description
HP	976	YC	C, M, Y, K	Contract PageWide Cartridge
HP	993	XC[6]	C, M, Y, K	Contract PageWide Cartridge
HP	993	AC	C, M, Y, K	Contract PageWide Cartridge

Managed HP LaserJet cartridge naming examples[5]

Toner cartridges for Managed HP LaserJet printers and MFPs do not have Selectability Numbers, but rather use a unique numbering scheme. The last digit of the W cartridge number designates the toner color (0=Black, 1=Cyan, 2=Yellow, 3=Magenta). HP Managed LaserJet cartridges also have a two-alpha character suffix ending in "C" which signifies a "contractual" product.

Brand	Cartridge	Alpha	Color	Product description
HP	W9000	MC	Black (K)	Managed LaserJet Cartridge
HP	W9001	MC	Cyan (C)	Managed LaserJet Cartridge
HP	W9002	MC	Yellow (Y)	Managed LaserJet Cartridge
HP	W9003	MC	Magenta (M)	Managed LaserJet Cartridge

[5] Supplies also have short 40-bit product descriptors, derivatives of these examples, which are registered in HP systems.
[6] HP PageWide 993XC cartridges are available in APJ only.
