<sup>1</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. <http://www.Windows.com/>.

<sup>2</sup> National Academic only product may be preinstalled on Customer Systems distributed directly to Eligible Purchasers or their designees, as specified in the MS LOE under a National Academic Offer. A "National Academic Offer" means a program under which a government, non-government organization (NGO) or education institution (also defined as an "Eligible Purchaser") will purchase Customer Systems during a 12-month period for Education Use. For purposes of National Academic Offers, "Education Use" means use by administrators, teachers, or students in primary or secondary schools.

<sup>3</sup> Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding and/or naming is not a measurement of higher performance.

<sup>4</sup> Touchscreen standard; non-touch version also available.

<sup>5</sup> For hard drives and solid state drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10) of system disk is reserved for the system recovery software.

<sup>6</sup> Battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. <http://www.bapco.com> for additional details.

<sup>7</sup> Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices.

<sup>8</sup> HD content required to view HD images.

<sup>9</sup> Not all configurations will qualify as an Ultrabook.
