

How HP Device as a Service helped Accenture save more than just time

Reduced costs, improved flexibility, accelerated time to market: these are just some of the benefits Accenture was able to offer clients when the firm partnered with HP for Device as a Service. Find out what else they had to say about this exciting new service model.

HP DaaS is a one-stop solution that combines hardware and lifecycle services to make a company's device management more efficient, improve the employee experience, and free up IT resources. Watch this video to find out how the leading global professional services provider Accenture uses HP DaaS to revolutionize clients' processes, bringing simplicity, flexibility and maximized resources.

Bringing HP DaaS on board may help your organization in a variety of ways—from enhancing productivity and satisfaction in employees to empowering your IT team to deliver greater innovation. It's simple, but could deliver huge benefits—and in this ever-changing, device-driven IT environment, there's never been a better time to jump on board.

Join Accenture in partnering up with HP DaaS and enjoy IT simplified, resources maximized and a one-stop solution that could revolutionize your IT team and your organization.
