

# The Remote Workforce Is Calling – How Will IT Respond?

Changing demographics and evolving expectations have transformed the workplace into a modern and complex ecosystem, presenting IT with new challenges. To keep up, adaptation is essential.

## The dynamic workforce

of companies rely on a blended workforce of freelancers and permanent employees<sup>1</sup>

## Blurred lines

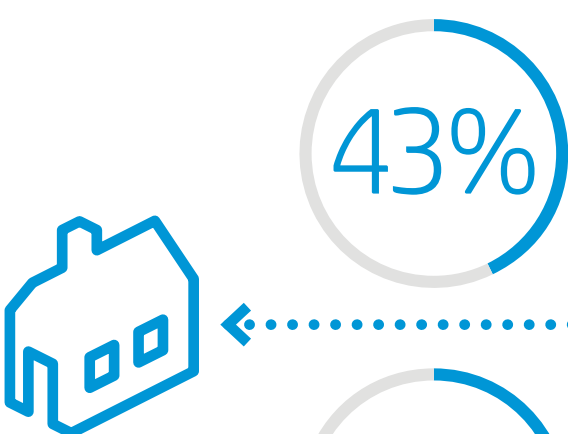

of employees use personal devices at work for non-work-related tasks<sup>2</sup>

of employees use smartphones to check in with work outside of official working hours<sup>3</sup>

## Remote control

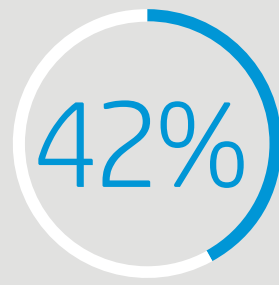

of employees work remotely at least some of the time<sup>4</sup>

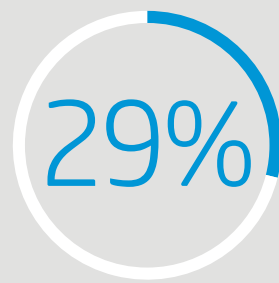

of employees work remotely four or five days a week

## Step up and stay secure

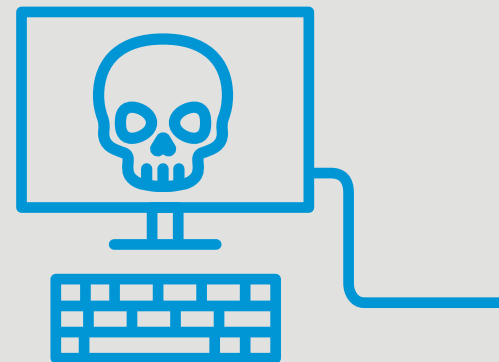

of security breaches come from employee misuse of devices<sup>5</sup>

of those security breaches...

result from employee use of personal devices

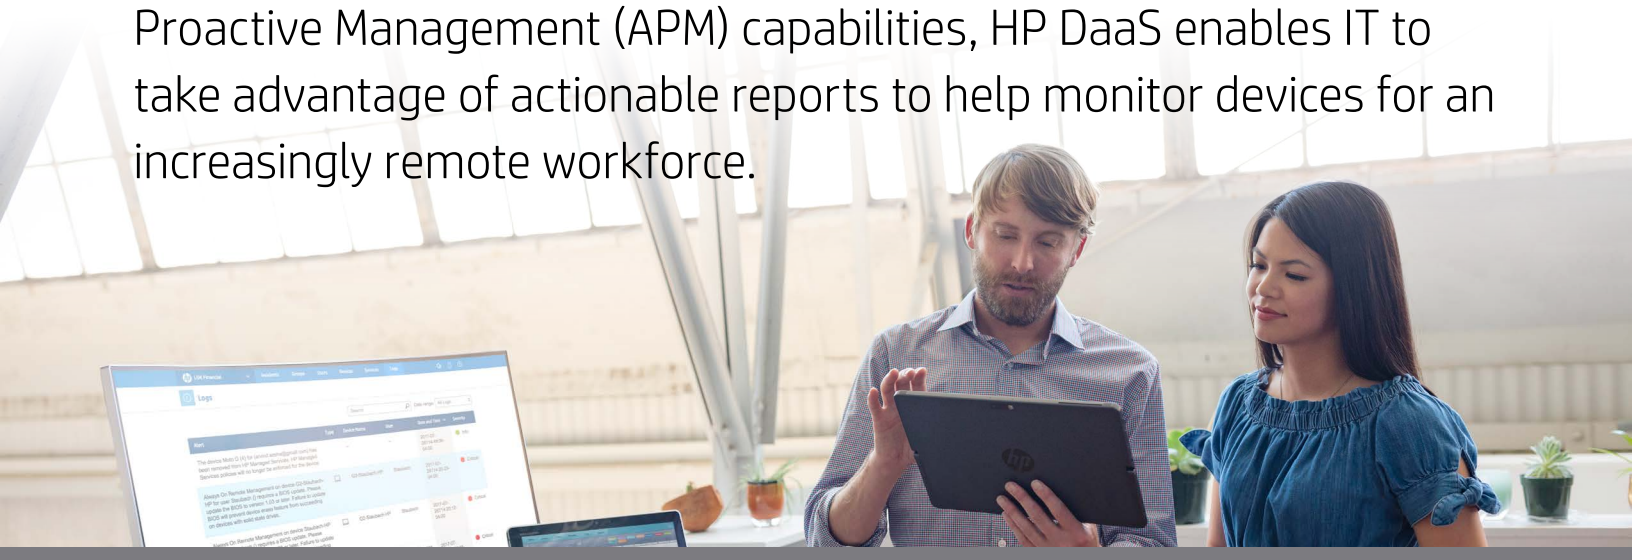

## A solution for a modern workforce

of IT decision-makers believe DaaS will have a positive impact on their device management<sup>6</sup>

With HP DaaS, organizations can get everything from hardware and accessories to lifecycle services and support with one price per device. What's more, in combination with HP's Analytics and Proactive Management (APM) capabilities, HP DaaS enables IT to take advantage of actionable reports to help monitor devices for an increasingly remote workforce.

Discover what HP DaaS with Analytics and Proactive Management offers and how it can help your organization meet the demands of an evolving workforce.
