

Main-Kinzig-Kreis strengthens its IT operations with the latest software

Bank hails 'highest ever level of security' thanks to HP JetAdvantage Security Manager solution

Handling sensitive government papers required the most effective security software to prevent this information from being compromised.

Main-Kinzig-Kreis (MKK), a local district council, approached HP who, along with Partner druckerfachmann.de, installed their most comprehensive package of security software. This deployment is a significant boost to MKK meeting its legislative and company objectives to implement a robust print security infrastructure.

14m prints annually

413k residents

1.9k employees

800 HP MF printers

100 schools

29 locations

Serving local residents

Effective administration is dependent on secure and reliable print

Staff printed various documents for applications and notifications

Residents expect district council to be competent and deliver public services

Needed to adhere to General Data Protection Regulation (DSGVO) requirements

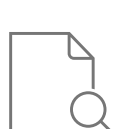

Multifunction print enabled creation of colour print; efficiency aided by scan and copy facility

The cost of bureaucracy

Commitments to local amenities and print structure needed to be reviewed

IT team supplied equipment to roughly 1,900 staff in the district's offices and schools

End of a print contract provided opportunity to identify a Managed Print Services contract

Reducing its total cost of ownership by installing environmentally-friendly devices

"We are starting to digitise now, but at that time our staff at the administrative offices still had to print out a great number of applications, forms, decisions and letters. This means that having a well-functioning printer fleet is incredibly important for people in our offices and school administrations."

- Jens Nebenführ, head of IT, Main-Kinzig-Kreis

HP PageWide provides efficiency boosting features

A trio of HP PageWide models installed

HP PageWide Managed Color Flow MFP E77660z+

HP PageWide Managed Color Flow MFP E77660z

HP PageWide Managed Color E75160dn

Comparing HP PageWide to laser printers

Print speed is twice as fast

Half the cost per page

Strong colour resolution reliability

A sustainable print security framework

HP JetAdvantage Security Manager

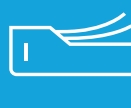

Irregular activity and infiltration triggers automatic print restart mode

Authorisation required for a new printer to be added onto the network

HP FutureSmart firmware detects and immediately eliminates malware

35%
 Reduction of print costs

200
 Page capacity for scanning in automatic document feeder

80
 Maximum page per minute speed

35
 Partner druckerfachmann.de alerted to helpdesk queries from MKK

49k
 MPS contracts managed by druckerfachmann.de

2.7k
 Service tickets resolved by druckerfachmann.de per month

"With HP JetAdvantage Security Manager, we have now reached a very high level of security that ensures compliance with regulatory and internal requirements. Another great function is that HP JetAdvantage Security Manager shows me immediately how the security risk will change every time I make an adjustment. Many functions that we had to previously manage manually are now automatically taken care of."

- Sven Bernt, administrator, Main-Kinzig-Kreis
