

# HP Classroom Manager

Classroom control, management,  
and collaboration with easy-to-use  
education software

## The Teacher Console allows educators to:

### Evaluate student comprehension

- Administer quizzes and tests
- Use keyword tracking to ensure comprehension
- Record results and progress with Digital Journals

### Encourage collaboration

- Distribute and collect assignments digitally
- Form chat groups to discuss topics
- Share student work across all systems

### Monitor student activities

- Monitor, restrict, and lock student computers
- Control websites and applications
- Chat with students 1:1

## The Tech Console allows IT administrators to:

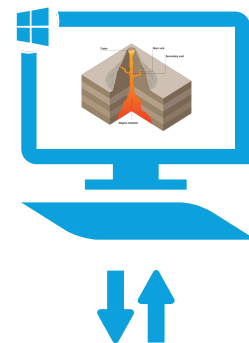

### Monitor and access PCs remotely

- Remotely monitor website activity and application usage
- Establish security processes for active and inactive PCs
- Update and install software onto all network PCs simultaneously
- Implement firewalls, anti-viruses and windows updates seamlessly

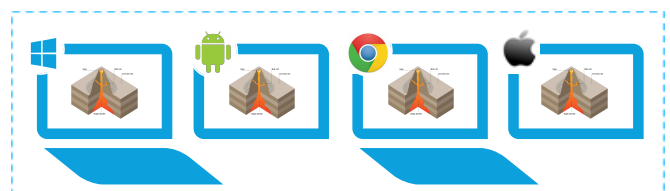

### Easily support teachers

- Display and send messages to one or all PC users in a matter of seconds
- Have teachers chat with technicians and request assistance via the "Get Support" button on the Teacher Console

### Teacher and technician console

### Student devices
