

# HP LaserJet MFP Analog Fax Accessory 300

Add analog fax functionality to your HP LaserJet MFP or HP Color LaserJet MFP to send and receive documents with ease.

HP LaserJet MFP Analog  
Fax Accessory 300

HP LaserJet  
4345mfp series

HP Color LaserJet  
4730mfp series

HP LaserJet  
9040mfp/9050mfp

HP Color LaserJet  
9500mfp

## Optimised fax capability

- **Enhance the value of your MFP.** This easy-to-install, internal fax card improves workgroup productivity by increasing the functionality of your MFP. Maximise your investment and simplify office activity by making your HP Color LaserJet 4730mfp, HP Color LaserJet 9500mfp, HP LaserJet 9040/9050mfp, or HP LaserJet 4345mfp the one-stop location for more of your everyday tasks with analog fax capability.<sup>1</sup>
- **Streamline your communications.** High performance V.34 (up to 33.6 kbps) guarantees fast transmission whether you're sending or receiving – which means you don't waste time standing at the fax machine.
- **Save money and bandwidth with JBIG compression.** When you compress the amount of information you send down the line, you shorten call times and increase your savings. The accessory comes equipped with JBIG compression as a standard feature (unlike most fax accessories), so you can install and begin saving immediately.
- **Stay in touch.** The accessory includes fax forwarding, enabling you to receive important faxes wherever you are. Just route incoming faxes to another fax number while you are travelling and never miss a business-critical fax.
- **"Go fetch" with your MFP.** With fax polling you can easily retrieve data spread out in other locations. Request information stored on another machine to automatically receive a fax with the desired information. Fax polling is just what you need to efficiently gather frequently used documents, like report forms or pamphlets.

## Smooth operation

- **Manage your fax from one control panel.** You'll spot the accessible fax icon on the device's control panel right away – and once you've begun, the one-line status offers helpful feedback on the same panel. This ensures quick and painless faxing for any user.
- **Fax LAN or analog.** One simple configuration switch alternates between LAN and analog faxing.<sup>2</sup> Enjoy seamless integration in your LAN or analog environment without having to reinstall or reconfigure the fax accessory.
- **Organise all your faxing.** With a thumbnail on the first page of the fax call report, it's easy to keep track of faxes. Save important fax information, including what was faxed, when and where the information was sent. Save time with the improved search by name functionality (auto-completion). The accessory also lets you print out its speed dial list, so you can see all your saved fax numbers at a glance – and avoid searching for a buried number.

## Secure faxing

- **Protect critical information.** Enable secure faxing on your device with manual and scheduled memory lock. This convenient feature keeps sensitive information confidential by ensuring that faxed documents are only printed for authorised personnel. You can use manual lock to save fax jobs until a certain PIN is entered to release them, or take advantage of the scheduled memory lock to specify the days and times you want faxes to print or be held on the device.
- **Get industry-renowned HP LaserJet reliability.** Trusted HP experience is at your service when you opt for the HP LaserJet MFP Analog Fax Accessory 300. Now your fax machine can be as dependable as your printer – with all the reliability you expect from HP.

<sup>1</sup> Fax accessory standard with HP LaserJet 4345x/xs/xm mfp, HP Color LaserJet 4730x/xs/xm mfp, HP Color LaserJet 9500mfp, optional on the HP LaserJet 9040mfp and 9050mfp.

<sup>2</sup> With Digital Sending Configuration software.

## Technical specifications
