Looking for cost-effective power protection for your small office environments?

HP Line Interactive Single Phase Uninterruptible Power System (UPS) solutions range from tower-based systems designed to safeguard tower servers and small office equipment, to rack-based systems that can protect a full rack of servers. Standard features include intuitive front panel displays for local management, and HP Enhance Battery Management (EBM) that help to extend the service-life of your batteries. HP Power Protection, a power management software application that ships with each model, combined with a UPS Network Module, optional on some models, enables you to remotely monitor and manage your UPS through HP Systems Insight Manager or via a standard web browser.

When you need it, use outstanding HP support services for your whole data center environment. With HP Care Pack Services, have the security of knowing that your HP UPS will be covered at the same service level and coverage period as your HP server. HP UPSs are backed by a 3-year limited warranty, with the first year including parts and labor. Also, standard on all HP UPS units is our exclusive 30-day Battery Pre-Failure Warranty, which ensures that when customers receive notification from HP Power Manager Software that the battery may fail, the battery is replaced free of charge under the warranty. This warranty is offered worldwide.

### Tower UPS Models

**HP T750 G4 UPS Models**
- HP T750 G4 NA/JP Uninterruptible Power System
- HP T750 G4 INTL Uninterruptible Power System

**HP T1000 G4 UPS Models**
- HP T1000 G4 NA/JP Uninterruptible Power System
- HP T1000 G4 INTL Uninterruptible Power System

**HP T1500 G4 UPS Models**
- HP T1500 G4 NA/JP Uninterruptible Power System
- HP T1500 G4 INTL Uninterruptible Power System

### Rack/Tower UPS Models

**HP R/T2200 G4 UPS Models**
- HP R/T2200 G4 NA/JP Uninterruptible Power System

**HP R/T3000 G4 UPS Models**
- HP R/T3000 G4 Low Voltage NA/JP Uninterruptible Power System
- HP R/T3000 G4 High Voltage NA/JP Uninterruptible Power System
- HP R/T3000 G4 High Voltage INTL Uninterruptible Power System

### Rack UPS Models

**R1500 G4 Models**
- HP R1500 G4 NA Uninterruptible Power System
- HP R1500 G4 JP/TWN Uninterruptible Power System
- HP R1500 G4 INTL Uninterruptible Power System

**R5000 UPS Models**
- HP R5KVA 3U L630 High Voltage NA/JP Uninterruptible Power System
- HP R5KVA 3U IEC309-32A High Voltage INTL Uninterruptible Power System

**R7000 UPS Models**
- HP R7KVA 4U 50A High Voltage NA/JP Uninterruptible Power System
- HP R7KVA 4U IEC-32A High Voltage INTL Uninterruptible Power System
Tower UPS Features

Tower UPS Rear Panel

1. USB Communication Port
2. RS-232 Communication Port
3. Outlets for Connection of Critical Equipment
4. Socket for Connection to AC Power Source
5. Ground Screw

HP T750 G4 UPS INTL

HP T1000 G4 UPS INTL

HP T1500 G4 UPS INTL

HP T750 G4 UPS NA/JPN

HP T1000 G4 UPS NA/JPN

HP T1500 G4 UPS NA/JPN

1. USB Communication Port
2. RS-232 Communication Port
3. Outlets for Connection of Critical Equipment
5. Ground Screw

Tower UPS Models Provide Power Protection and Management Optimized for Smaller IT Environments

Key Features
- Manageability through USB and Serial ports
- Ease of configuration via enhanced front panel display.
- Intelligent manageability with bundled Power Manager Software.

NOTE: Certain restrictions and exclusions apply. Consult the HP Computer Support Center for details.
## Tower UPS Specifications

### Towers G4 UPS Specifications

**Battery Type**
12 V, sealed, maintenance-free, rechargeable, valve regulated lead-acid batteries with a 3-5 year service life at 25°C (77°F).

**Electrical Input**
- **Voltage Range**: ± 20% for nominal voltages of 100, 110, 120, 220, 230, and 240VAC. Note: Nominal voltages to coincide with standard power ranges
- **Frequency**: 50/60 Hz
- **Online Efficiency**: >95%
- **REPO**: N/A
- **Online Regulation**: -10% to +6% of nominal voltage

**Electrical Output**
- **On battery Regulation**: ±5%, -10% of nominal voltage
- **Voltage Wave Form**: Sine wave
- **Connections**: See Model Selection Matrix
- **Output protection**: Firmware overload sensing and control

**Battery**
- **Extended Batteries**: N/A
- **Backup Time**: See Backup Times Chart
- **Recharge Time**: <4 hours to charge 90% usable capacity. <24 hours for complete recharge

**Communications**
- **Serial Ports**: RS232 (via RJ45 connector to DB9) and USB ports (ships with communication cables)
- **Option Slot**: N/A
- **Option Cards**: N/A
- **LCD Interface**: LCD Display and Button Interface
- **Software**: HP Power Protector management software available via download

**Environmental and Safety**
- **Operating Temperature**: 32° to 104° F (0° to 40° C) (with battery)
- **Non-operating Temperature**: -15° to 55° F (-26° to 13° C) (without battery)
- **Operating Humidity**: 5% to 90% (non-condensing)
- **Storage Humidity**: 5% to 90% (non-condensing)
- **Operating Altitude**: Up to 1500 m above sea level
- **Audible Noise**: <40dB in normal operation. <45dB while on inverter
- **Safety Markings**: NA/JPN: UL/cUL, ICES B,NOM,VCCI, Int’l: CE,TUV GS,C-tick,EAC,KC
- **Safety Certifications**: UL1778, UL60950-1; CSA22.2 No.107.3-05,; EN609501-; EN62040-1 IEC62040-1-1, IEC 60950-1
- **REPO Port**: N/A

HP R/T2200 and R/T3000 Tower Uninterruptible Power System (UPS)

Flexible Rack/Tower Models Deliver Cost-Effective Power Protection

Key features
- Convertible design can be used as a 2U rack mountable UPS or as a standalone tower UPS
HP Rack UPS Specifications

- Power density up to 3000VA / 2700 Watts (200-240V models)
- Easy configuration through enhanced front panel display
- More efficient voltage regulation using digital signal processing technology
- Enhanced system flexibility with two independently controlled load segments
- Support for Remote Emergency Power Off (REPO) circuitry
- Easy serviceability through modular design

Specifications

R/T2200 G4 UPS (NA/JPN only)

Battery Type
12 V, 34W, sealed, maintenance-free, rechargeable, valve regulated lead-acid batteries with a 3-5 year service life at 25°C (77°F).

Electrical Input
- Voltage Range: See Model Matrix for nominal and user selectable voltage settings; Battery string voltage 48Vdc
- Frequency: 50/60 Hz
- Online Efficiency: 94%
- REPO: Remote Emergency Power-Off disables AC power to load
- Online Regulation: -10% to +6% of nominal voltage

Electrical Output
- On battery Regulation: ±5% of nominal voltage
- Voltage Wave Form: Sine wave
- Connections: See Model Selection Matrix; divided into 2 Load Segments
- Type: Maintenance-free, sealed, valve-regulated lead acid (VRLA)

Battery
- Extended Batteries: Up to four ERMs can be supported; recommendation is up to 2
- Backup Time: See Backup Times Chart
- Recharge Time: <3 hours to 90% usable capacity; <48 hours for complete recharge
- Serial Ports: Standard DB-9 and USB ports (ships with communication cables)

Communications
- Option Slot: One (For Optional Communication Card)
- Option Cards: HP UPS Network Module (not included in kit but orderable option)
- LCD Interface: LCD Display and Button Interface
- Software: HP Power Protector software available via download

Environmental and Safety
- Operating Temperature: 0°C to 40°C (32°F to 104°F); Long term use at higher temperature will reduce battery life 25°C (77°F)
- Non-operating Temperature: -15°C to 50°C (-5°F to 122°F)
- Operating Humidity: 20% to 90% (non-condensing)
- Storage Humidity: 10% to 90%
- Operating Altitude: Up to 6,562 ft (2000 m) above sea level
- Audible Noise: <40dB in normal operation, <45dB on battery operation
- Safety Markings: NA/JPN: UL, cUL, VCCI
- Safety Certifications: UL1778, UL60950-1; CSA22.2 No.107.3-05; EN60950-1, EN62040-1IEC62040-1-1, IEC 60950-1,
- REPO Port: Meets NEC code 645-10 and 645-11 and UL requirements

Unit Dimensions (LxWxH)
- 20.55x 17.36 x 3.39 inches / 522x 441 x 86.2 mm

Shipping Dimensions (LxWxH)
- 36.26 x 23.23 x 11.02 inches / 921 x 590 x 280 mm

Unit Weight
- 65.28 lbs / 29.61 kg

Shipping Weight
- 83.62 lbs UPS and 83.62 lbs ERM / 37.93 kg & 37.93 kg

- Front panel LCD display
- Enhanced system flexibility with two independently controlled load segments

Specifications
## HP Rack UPS Specifications

### HP R1500 G4 UPS

#### Electrical Input
- **Voltage Range**: ±15% of nominal 100 and 120V models and ±20% of nominal on 230V models. See Model Matrix for nominal and user selectable voltage settings via LCD Front Display Panel.
- **Frequency**: 50/60 Hz ± 5 Hz (auto sensing at default voltage)
- **Online Efficiency**: 92%

#### Electrical Output
- **Online Regulation**: -10% to +6% of nominal voltage*
- **On battery Regulation**: -10% / +6% of nominal voltage
- **Voltage Wave Form**: Sine wave
- **Frequency**: 50/60 Hz ± 5 Hz (auto sensing at default voltage)
- **Online Efficiency**: 92%

#### Battery
- **Type**: Maintenance-free, sealed, valve-regulated lead acid (VRLA)
- **Backup Time**: See Backup Times Chart
- **Recharge Time**: <3 hours to 90% usable capacity; <24 hours for complete recharge
- **Voltage**: 36V Battery String

#### Communications
- **Ports**: Standard DB-9 port (Kit ships with cable for communication)
- **Option Slot**: One (for Optional Communication Card)
- **Option Cards**: HP UPS Network Module (Not included in Kit but orderable Option)
- **Software**: HP Power Protector management software available via download

#### Environmental and Safety
- **Operating Temperature**: 32° to 104° F (0° to 40° C)
- **Storage Temperature**: -15° to 55° F (-26° to 13° C)
- **Humidity** (Operation): 0% to 90%
- **Humidity** (Non-operating): 0% to 90%
- **Operating Altitude**: up to 2000 meters
- **Audible Noise**: <40db (at 1m from surface of unit) <45dBA while on inverter
- **Safety Markings**: UL/cUL CE, TUV, C-tick, CES, EAC, VCCI, GS, KC, EK, BSMI
- **Safety Certifications**: UL1778; UL60950, CSA22.2 No.107.1, No.107.3; CB Bulletin IEC62040-1; IEC 60950-1; EN60950-1; EN 62040-1; EN 61000-3-2+A1 +A2; EN 61000-3-3
- **EMC Markings**: FCC-BCISPR 22; VCCI B; CE, BSMI, C-TICK
- **Emissions**: FCC CFR 47, Part 15 Class A, EN50091-2
- **Immunity**: EN 55024; EN 55091-2 consisting of IEC 61000-4-2 thru IEC 61000-4-6 ; IEC 61000-4-11
- **Surge Suppression**: Conforms to IEEE 587B and ANSI C62.41

#### Unit Dimensions (LxWxH)
- 21.8x17.2x1.69 in (554 x 438 x 43 mm)
- 30.71x22.8x6.1 in (780 x 580 x 155 mm)

#### Shipping Dimensions
- 39.06 lb (19.72 kg)
- 54.45 lb (24.7 kg)

---

* The R1500 G4 UPS regulates the output voltage at -10% / +6% of the selected nominal voltage. The regulation is accomplished by bucking or boosting the input voltage. The voltage regulation operation is governed by the unit's input voltage spec of +/-20%. The unit will regulate at -10% / +6% while within the limits set by the input spec. The unit will go to battery operation upon exceeding the limits set by the input spec. The buck and boost voltage regulation operation, or AVR (Automatic Voltage Regulation), is accomplished by adjusting output transformer tap selections via electromechanical relays. The transformer tap selection is controlled via digital transition voltage set point values programmed in the unit's firmware. These programmed values are without tolerance.

The unit will monitor the input voltage and accept a range of +/-3% of the selected nominal voltage as the target voltage to regulate at -10% / +6%. For example, a unit configured to 120V nominal voltage will regulate at -10% / +6% for any voltage measured between 116.4V and 123.6V. The digital transition voltage set point values will adjust accordingly to regulate to -10% / +6% of the measured input voltage.

Transition set point voltages are subject to a hardware tolerances of +/-3% of the set point value.

The HP UPS Network Module enables you to monitor and manage power environments through comprehensive control of HP UPSs. The HP UPS Management Module can support either a single UPS configuration or provide additional power protection with support for dual redundant UPS configuration for no-single-point-of-failure. The additional serial ports will provide greater power management control and flexible monitoring.

The management module can be configured to send alert traps to HP Systems Insight Manager and other SNMP management programs or used as a standalone management system. This flexibility enables you to monitor and manage UPSs through the network. To facilitate day-to-day maintenance tasks, the embedded management software provides detailed system logs.

The HP UPS Network Module provides remote management of a UPS by connecting the UPS directly to the network. Configuration & Management of the UPS from anywhere and at anytime via a standard web browser.

**NOTE:** For more information on the UPS Network Module please see: [http://www.hp.com/go/hpunm](http://www.hp.com/go/hpunm).

### Extended Runtime Module (ERM)

Extended Runtime Modules increase the available runtime for the larger rack mounted UPS units to allow customers to ensure all of their applications can be gracefully shutdown in the event of a power failure.

- R/T2200 G4 & R/T3000 G4 Extended Runtime Module – 2U
- R5000 & R7000 Extended Runtime Module – 3U

### 2U R/T UPS ERM Shipping Kit

HP 2U Rack/Tower UPS Shipping Kit

**NOTE:** The optional 2U shipping kit consists of heavy duty rails, front and back CTO brackets and required mounting hardware for attaching the UPS or ERM to the rack. This kit is an option that is required if the UPS and or ERM are going to be mounted into a rack that will be shipped via transport. One of these kits is required per unit, whether UPS or ERM.

### Extended Runtime Modules (ERM)

- HP R/T2200 G4 Extended Runtime Module
- HP R/T3000 G4 Extended Runtime Module
- HP R/T3000 2U Extended Runtime Module

**NOTE:** AF455A can only be used with the G2 models.

- HP R5KVA and R7KVA 3U Extended Runtime Module

**NOTE:** #0D1 will appear after the part number on the sales order if HP factory integration is indicated.

### UPS Management

HP UPS Network Module Mini-slot Kit

**NOTE:** For more information on the UPS Network Module please see: [http://www.hp.com/go/hpunm](http://www.hp.com/go/hpunm).
Warranty and Care Pack

Warranty
When you need it, use outstanding HP support services for your whole data center environment. With HP Care Pack Services, have the security of knowing that your HP UPS will be covered at the same service level and coverage period as your HP server. HP UPSs are backed by a 3-year limited warranty, with the first year including parts and labor. Also, standard on all HP UPS units is our exclusive 30-day Battery Pre-Failure Warranty, which ensures that when customers receive notification from HP Power Manager Software that the battery may fail, the battery is replaced free of charge under the warranty. This warranty is offered worldwide.

NOTE: $250,000 Computer/Load Protection Guarantee is also provided (applicable in North America only).

The HP UPS is covered by a three year warranty, with the first year including parts and labor. Also, standard on all HP UPS units, is our exclusive Battery Pre-Failure Warning, which extends the advantage of a HP three-year, limited warranty by applying it to the battery before it actually fails. This warranty is offered worldwide. Specifically, the Battery Pre-Failure Warning ensures that when customers receive notification from HP Power Management Software that the battery may fail, the battery is replaced free of charge under the warranty.

NOTE: $250,000 Computer/Load Protection Guarantee is also provided in North America, in addition to the HP three year, limited warranty.

Warranty Upgrade Options:
- Response - Upgrade on-site response from next business day to same day 4-hours
- Coverage - Extend hours of coverage from 5 days x 9 hours to 7 days x 24 hours
- Duration - Select duration of coverage for a minimum period of 1 year or multiple years

Service and Support
HP Technology Services
HP Technology Services offers you consultants and support experts to solve your most complex infrastructure problems. We help keep your business running, boost availability and avoid downtime.

Protect your business beyond warranty with HP Care Pack Services
When you buy HP Options, it’s also a good time to think about what level of service you may need. HP Care Pack services provide total care and support expertise with committed response choices designed to meet your IT and business need.

Insight Remote Support
Delivers secure remote monitoring and support for HP servers and storage, 24x7 at no additional cost. Available as part of HP Warranty, Care Pack and Service Contract offers.

Parts and materials
HP will provide HP-supported replacement parts and materials necessary to maintain the covered hardware product in operating condition, including parts and materials for available and recommended engineering improvements. Supplies and consumable parts will not be provided as part of this service; standard warranty terms and conditions apply. Parts and components that have exceeded their maximum supported lifetime and/or the maximum usage limitations as set forth in the manufacturer's operating manual or the technical product data sheet will not be provided, repaired or replaced as part of this service.

Coverage
For ProLiant servers and storage systems, this service covers HP-branded hardware options qualified for the server, purchased at the same time or afterward, internal to the enclosure, as well as external monitors up to 22” and tower UPS products; these items will be covered at the same service level and for the same coverage period as the server unless the maximum supported lifetime and/or the maximum usage limitation has been exceeded. Coverage of the UPS battery is not included; standard warranty terms and conditions apply.

The defective media retention service feature option applies only to Disk or eligible SSD/Flash Drives replaced by HP due to malfunction. It does not apply to any exchange of Disk or SSD/Flash Drives that have not failed. SSD/Flash Drives that are specified by HP as consumable parts and/or that have exceeded maximum supported lifetime and/or the maximum usage limit as set forth in the manufacturer’s operating manual or the technical data sheet are not eligible for the defective media retention service feature option.
Warranty and Care Pack

Recommended HP Care Pack Services for optimal satisfaction with your HP product

Recommended Services

- **3-Year HP 24x7 4 hour Response, Hardware Support Onsite Service**
  Provides you with rapid remote support and if required an HP authorized representative who will arrive on site any time and day of the year to begin hardware maintenance service within 4 hours of the service request being logged.

- **HP ProLiant Server Hardware Installation**
  Provides for the basic hardware installation of HP branded servers, storage devices and networking options to assist you in bringing your new hardware into operation in a timely and professional manner

- **3-Year HP 6 hour Hardware Support Onsite Call-to-Repair Service**
  Provides an IT manager with a team of support specialists who will quickly begin troubleshooting the system to help return the hardware to operating condition within 6 hours of the initial service request to the HP Global Solution Center

- **HP Proactive Select Service**
  Provides a flexible way to purchase HP best-in-class consultancy and technical services. You can buy Proactive Select Service Credits when you purchase your hardware and then use the credits over the next 12 months.

### Environment-friendly Products and Approach

#### End-of-life Management and Recycling

Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: [http://www.hp.com/go/green](http://www.hp.com/go/green). To recycle your product, please go to: [http://www.hp.com/go/green](http://www.hp.com/go/green) or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: [http://www.hp.com/go/green](http://www.hp.com/go/green). These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
## Summary of Changes

<table>
<thead>
<tr>
<th>Date</th>
<th>Version History</th>
<th>Action</th>
<th>Description of Change:</th>
</tr>
</thead>
<tbody>
<tr>
<td>28-Sep-2015</td>
