

# HP Proactive Print Advisor

Help increase business productivity and help lower total print costs with HP Proactive Print Advisor. The service automatically detects and monitors your printing and imaging devices. HP Experts then analyze the data received from your devices and provide you with a personalized report with recommendations for reducing device downtime.<sup>1</sup>

## Key benefits

Don't just manage your printing and imaging fleet, manage it better

Advanced remote management software from HP

Help from HP expert analysts

Information needed to optimize your print environment

Consistency worldwide

## How does it work?

Device information is securely transmitted to HP

1

Information is placed in HP's secure Analytic Services Database

2

Data analysis is performed

4

Scheduled reports and recommendations are created and delivered to customer

3

Analyzed data converted into utilization, usage, and issue reports
