

# Blue Angel certified HP printing systems

according to RAL-UZ 205 and RAL-UZ 171 basic award criteria

The environmental goals of HP are to provide products and services that are environmentally sound throughout their life cycles and to conduct worldwide operations in an environmentally responsible manner. Therefore, HP incorporates guidelines from the German Blue Angel eco label into its product design and certifies a wide range of devices in different user segments.

The German Blue Angel environmental label is awarded to HP printing systems for meeting more than 100 strict criteria as defined by RAL-UZ 205 (valid as of January 2017) or the previous version RAL-UZ 171 (valid until December 2017).

Original HP ink and toner cartridges of the certified printing systems fulfill the strict Blue Angel requirements for supplies and are tested with the related devices. Thus, HP can only ensure compliance of its printers and multifunctional devices with the Blue Angel criteria when they are operated with original supplies.

HP provides a Blue Angel User Information document for devices certified with the Blue Angel in Germany. These documents display relevant environmental product features in detail. They can be accessed [here](#) on the HP website.

More information on the Blue Angel and certified HP products is available on the [Blue Angel section of the HP website](#).

## The following HP printing systems are awarded with the environmental label Blue Angel acc. to RAL-UZ 205 of the Federal Environmental Agency in Germany:

Status: 16 April 2018

[www.blauer-engel.de/uz205](http://www.blauer-engel.de/uz205)

The Blue Angel eco label demonstrates compliance with more than 100 strict criteria, e.g. for the HP LaserJet Enterprise M607dn certified according to RAL-UZ 205 in Germany.

## Blue Angel certification of Samsung printing systems:

[www.blauer-engel.de/uz205](http://www.blauer-engel.de/uz205)

The Blue Angel eco label demonstrates compliance with more than 100 strict criteria, e.g. for the Samsung ProXpress C4010ND certified according to RAL-UZ 205 in Germany.

For a period of time, HP also markets printing systems carrying the “Samsung” trademark – completing HP’s portfolio of products characterised by low energy consumption, moderate noise levels, controlled substances and particles emissions, sustainable use of materials as well as long-life and recyclable design. Accordingly, many Samsung printing systems qualify for the recognised German Blue Angel eco label.

### The following Samsung printing systems are awarded with the environmental label Blue Angel acc. to RAL-UZ 205 of the Federal Environmental Agency in Germany:

Status: 16 April 2018

Samsung ProXpress C4010ND  
Samsung ProXpress C4060FX
