Introduction

As workspaces continue to evolve, the Desktop Workstation PC has to evolve with it. To add value for customers who are unable to deploy the HP Z2 Mini G3 Workstation on top of their desk, HP has designed the Z2 Mini VESA® Sleeve which enhances customer experience for the following environments:

- Allows the HP Z2 Mini G3 Workstation to be mounted to the backs of displays that are arm-mounted (requires arm and stand to have 100 mm x 100 mm VESA® hole pattern)
- Allows the HP Z2 Mini G3 Workstation to be mounted directly underneath the desktop for Zero footprint on or under the desk
- Allows the HP Z2 Mini G3 Workstation to be mounted to walls for conference room environments

Key features and benefits

In addition to allowing the Z2 Mini to mount on a display arm, the sleeve has additional benefits for security:

- When the sleeve is installed on the Z2 Mini, it provides an extra layer of metal around the system to prevent it from being tampered with
- The sleeve comes with a padlock loop¹ accessory that allows a standard padlock to be installed and providing extra security to the system, in addition to accommodating the 10mm Kensington lock slot

Overview

- The HP Z2 Mini VESA Sleeve is designed with security port covers for both the Side and Rear I/O to prevent unintended access to the system's USB ports

NOTE 1: Sold separately.

Mechanical	Dimensions (H x W x D)	Unpackaged	70 mm x 224 mm x 223 mm (2.75 x 8.81 x 8.77 in)
