

OMEN by HP 32 Displays

Massive views. Dominant victories.

This is gaming pushed to its limit. Soak in your hard fought victory with an eye-popping experience worthy of your battlestation. From the massive panel to the impressive QHD¹ detail, every challenge you conquer looks as good as it feels.

Strength in numbers

- When you crank up the settings, no detail should go unnoticed. The ginormous QHD panel pumps out extreme detail with 77 percent more pixels than standard Full HD displays.²

Every millisecond matters

- Hone your reflexes and gain the upper hand over your enemies. The 5ms response time³ and 75Hz refresh rate eliminates smearing and motion blur, so you can react instantly to what's on screen.

AMD FreeSync™ certified

- See and feel the difference of fluid, responsive gameplay. By synchronizing the refresh rate with your GPU, AMD FreeSync⁴ makes display stutter, input lag, and screen tears ancient history.

Featuring

- Brilliant details and captivating definition. Get it all with the unforgettable image quality of a 2560 x 1440 resolution display.¹
- Vibrant detail from practically any position with consistent color and image clarity maintained across an ultra-wide 178° horizontal and vertical viewing angles.
- Quickly connect to your screen with simple and easy access to all your ports for a more convenient experience.
- Get everything you need in one elegant package. Just one connection to the wall eliminates cable clutter. Slim design gives you more room for an enhanced computing experience.

¹ Quad high-definition (QHD) content is required to view QHD images.

² Based on same size monitor and image pixel density. QHD (Quad High Definition) content required to view QHD images.

³ All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

⁴ FreeSync™ is only available when it is connected on Display Port.
