# **Saudi sees four massive new raids against counterfeiting**

- ▶ December 2016 through February 2017, Saudi authorities successfully acted against four major distributors of counterfeit cartridges for HP printers – two of them were also involved in manufacturing fakes.
- ▶ At showrooms and large warehouses, the officials confiscated about 145,000 illicit items, including fake toners and inks, as well as components.
- ▶ HP is honoured to have supported these successes and thanks the Saudi authorities for protecting customers from potentially dangerous fakes.
