

HP Spectre Notebook 13-v106na

Power never looked so thin.

This is design and technology taken to a whole new level. Artisan materials and striking craftsmanship create an experience unlike anything else. With a breathtaking composition that's 10.4 mm thin and full Intel® Core™ i5 or i7 power,² this luxurious laptop is completely irresistible.

There's thin and there's thinner
Desire starts with a design that has no comparison. Crafted with durable aluminum and carbon fiber, this impossibly thin laptop redefines perfection.

More power in every millimeter
It's time for unbelievable performance and revolutionary design to go hand in hand. The cutting-edge hyperbaric cooling system pulls cool air in to make full Intel® Core™ i power² a remarkable reality.

A sensorial masterpiece
Treat yourself to a more refined entertainment experience with a Full HD³, edge-to-edge Corning® Gorilla® Glass display, audio by Bang & Olufsen and three USB-C™ ports⁴ to power external displays and accessories.

² Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance. ³ Full high-definition content is required to view (FHD) images. ⁴ USB Type-C™ and USB-C™ are trademarks of USB Implementers Forum.
