

## HP Environmental, Health and Safety Policy

HP is committed to conducting its business in a manner that delivers leading environmental, health and safety performance. This is consistent with our commitment to corporate citizenship, social responsibility and sustainability.

This Policy applies to all HP business organizations and employees wherever they are carrying out work on behalf of HP, worldwide.

Our goals are to provide products and services that are safe and environmentally sound throughout their lifecycles, conduct our business in an environmentally responsible manner, and create health and safety practices and work environments that enable us to work injury-free.

To accomplish this, we will:

- meet or exceed all applicable legal requirements;
- proactively reduce occupational injury and illness risks wherever we work, and promote employee health and well-being;
- aggressively pursue pollution prevention, resource conservation and waste reduction in our operations;
- design and manufacture our products to be safe to use and to minimize their environmental impact;
- offer our customers environmentally responsible end-of-life management services for HP products; and
- require our suppliers to conduct their operations in a socially and environmentally responsible manner.

We achieve this high level of performance by integrating these objectives into our business planning, decision-making, performance tracking and governance processes to ensure we achieve our goals and continually improve upon them.

Each employee has an individual responsibility to understand and support our environmental, health and safety policies and to actively participate in programs to ensure our goals are achieved.

We believe our company must work with employees, suppliers, partners, customers, and governmental, nongovernmental and community organizations to protect and enhance health, safety and the environment. We foster open dialogue with our stakeholders to share relevant information, and contribute to the development of sound public policy and business initiatives.

Dion Weisler  
Chief Executive Officer, HP Inc.
