## Back and bolder than ever

While other towers have been standing still, HP has shaken up the category. From its eye-catching, space saving design, to full performance and reliability, this HP Pavilion is the best thing to happen to towers in over 20 years.

### Designed to be bold

Infused with style and personality, with color options to match your style, the redesigned HP Pavilion helps you transform your workspace.

### Power and performance

With up to 3TB of storage, advanced graphics, multi-display support, and improved upgradability, this tower stands up to even the closest scrutiny.<sup>1</sup>

### Built to last

When you're looking for a desktop that just doesn't quit, HP has you covered. We put every tower through over 100 tests, ensuring its trusted reliability.

<sup>1</sup> For hard drives, TB= 1 trillion bytes. Actual formatted capacity is less. Up to 30GB of hard drive is reserved for system recovery software.

### Featuring

#### Windows 10

Do great things confidently with the familiar feel of Windows—only better.

#### Quad-core AMD A8 processor

Get the lightning-fast speed you need for all your day-to-day tasks. Quad-core performance lets you work with multiple applications at once and play the latest games without experiencing crippling slowdowns.

#### HDMI-out

It's never been easier to give your device a bigger or second display. With an HDMI output you can transmit HD video and sound with just one standard cable.

#### VGA

If you have an older display with only VGA connectivity, you can still use it as an external display. Simply connect it to your device with the VGA port and project your favorite content to the big screen without needing a modern display or adapters.

#### DDR4 RAM options

Designed to run more efficiently and more reliably at faster speeds, DDR4 is the future of RAM. With its higher bandwidth, everything from multi-tasking to playing games gets a performance boost.

<sup>1</sup> Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

<sup>2</sup> For solid state drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 35 GB of hard drive is reserved for system recovery software.
