EXPERIENCE

**SAMSUNG.
PRINTING INNOVATION.**

In modern society, keeping up with technology is critical to the success of any business or the productivity of any individual. The choice of technology can be the difference between survival and leadership.

As the workplace becomes more digitized and the workforce becomes more mobile, the printer and copier device must also adapt and evolve.

Printer technology and satisfaction lags the electronics innovation most employees expect. Nor has there been any major entrant to help shake change.

Until now.

Samsung is applying its ingenuity to develop breakthrough printing solutions that ignite productivity. Only Samsung has the electronics expertise to design and build a printer that fits the way society works today.

Printing for the modern world has arrived.
Samsung is printing innovation.

SAMSUNG

PROFESSIONAL COLOR PRINTING AT THE SPEED OF BUSINESS

Increase productivity with a flexible and economical color printing solution

Businesses today need to know that they can produce a high level of printing quickly, and in a cost-effective way.

Samsung's new A4 color multifunction printer ProXpress C2670FW not only delivers brilliant color quality, but can scan, copy and fax for extra convenience.

Plus, a fast dual-core CPU, gigabit network support and instant fusing technology ensure enhanced speed and less waiting time.

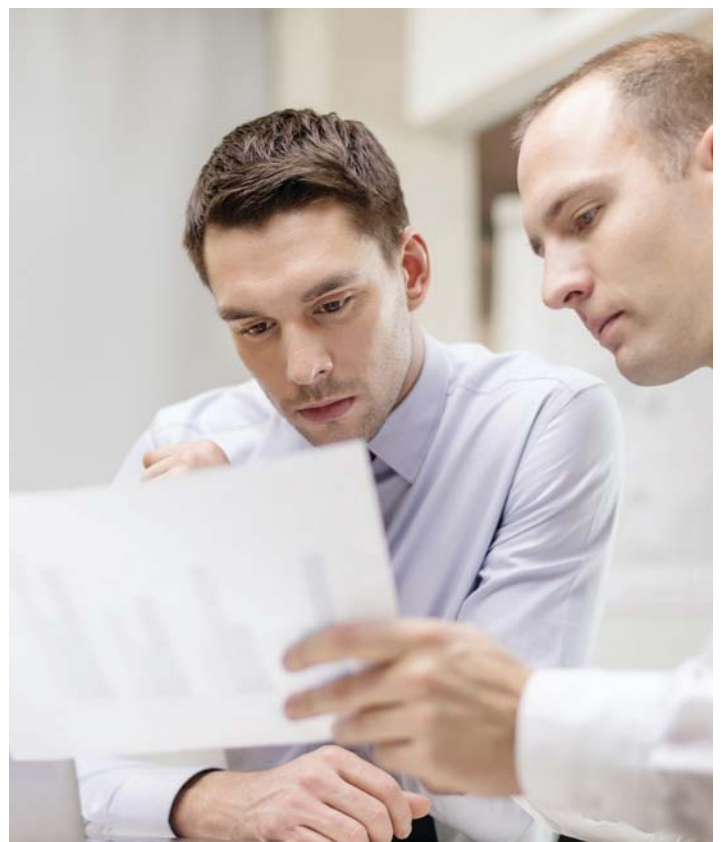

Yet what sets it apart economically is the range of cost-effective and innovative features, such as high-yield toner, low energy consumption and eco-friendly settings.

It makes this medium workgroup printer as cost-conscious as they come.

HIGH-PERFORMING PRINTERS WITH IMPROVED PRINT QUALITY AND SPEED

Enhance office operations with fast, high-quality printing and a wider range of media handling

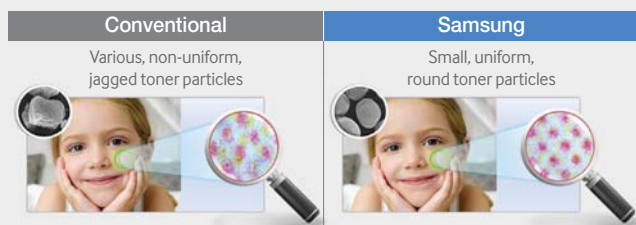

Higher-quality print output

Samsung's unique Rendering Engine for Clean Page (ReCP) technology and up to 9,600 x 600 dpi effective output improve the overall quality and vibrancy of your color printing, ensuring every printout looks perfect. It automatically sharpens the focus of both graphics and text, while solid objects are overlapped to eliminate white gaps.

Polymerized toner

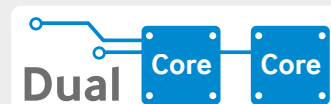

Our newly developed polymerized toner has smaller and more uniform particles than conventional toner. Your printouts will have crisper lines and more vivid colors, in addition to eliminating paper curling. Also, its higher wax content improves the image gloss and enhances the durability, preventing unwanted fading.

High-speed printing and image processing

The ProXpress C2670FW boasts print speeds of up to 26 pages per minute (ppm). The 533 MHz dual-core processor, combined with 512 MB standard memory (expandable up to 1 GB) reduces completion time of even the heaviest print and copy jobs. High speed and performance enable businesses to speed up document processing to stay efficient.

533 MHz Dual-Core Processor

 26 pages per minute

A wide range of media handling for professional documents

The printers' multipurpose tray supports media of up to 220 gsm (grams per square meter) in weight, which offers more printing choices for professional documents. Numerous labels, cards and envelopes can be printed using the multipurpose tray with ease. This ability virtually eliminates the time it takes to feed sheets one at a time.

CUSTOMIZE YOUR CAPABILITIES WITH EASY-TO-USE PRINT SOLUTIONS

Boost efficiency with simple, yet powerful performance features

Samsung NFC Print™: Tap, print and go

Workers can simply tap their smart devices to print, scan or fax to a multifunction printer (MFP) with the Samsung MobilePrint app on their mobile devices thanks to Samsung NFC Print*.

* The Samsung NFC Print option will be available beginning October 2014.

Samsung NFC technology earned the 2013 "Outstanding Achievement" Award from Buyers Lab, Inc.

Samsung MobilePrint app: Advanced mobile printing with more options

Print with powerful features, including N-up printing, image size adjustment and support for mobile scan and mobile fax. You can also print various formats and types of documents, such as gallery images, Microsoft® Office® documents, Adobe® PDFs, web pages, e-mail and Google Docs, along with Facebook® content. Moreover, fix print errors from your smartphone using visual troubleshooting. Just tap when a print error occurs and a video clip guides you through fixing jams, empty toner and more.

Comfortably sized touchscreen GUI

A wide, 4.3-inch touch panel provides a smart user interface (UI) and convenient access to both preinstalled and custom print solutions.

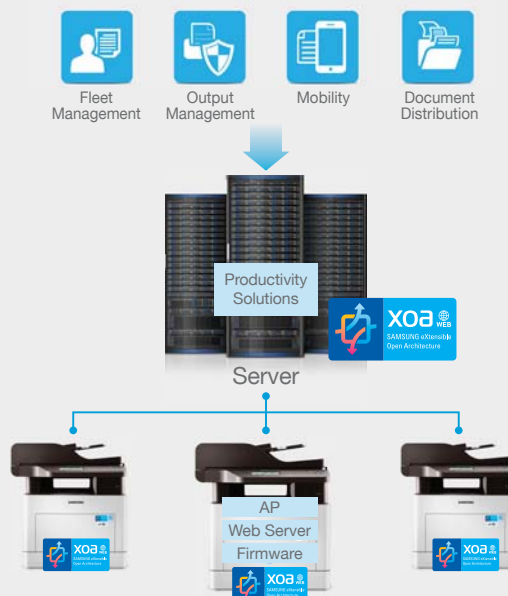

USB direct printing

If you have jobs stored on a memory stick that you need to print, you can send them directly through our special USB dock, located just below the operating panel.

Diverse web-connected solutions that raise productivity

XOA web platform supports an array of server-based productivity solutions to meet specific business needs. From the UI, users can tap into a robust lineup of web-connected solutions to increase their business performance. From the server, printer network managers can easily install and manage custom solutions to improve efficiency and workflow.

ECONOMICAL PRINTERS THAT REDUCE WASTE AND YOUR TCO

Reduce operating expenses with economical features and solutions

Low cost, low impact on the world

Save toner, paper and energy with ease - it's good for the environment and it's good for your business' profits. Being economical and printing vibrant color documents goes hand in hand with the C2670FW.

Extra-high yield means extra-low costs

Enjoy professional color printouts while staying in complete control of your total cost of ownership with: (TCO). Our specially developed higher-yield cartridges means more time between changes and less expense with each printout. (Black toner cartridges yield 6,000 standard pages, yellow / magenta / cyan toner cartridges yield 3,500 standard pages)

Cut costs with duplex printing

With the integrated duplex feature, saving paper has never been easier. That's because the paper is turned automatically so that you can print on both sides. It could mean an amazing saving of up to 50% on your paper consumption.

Save up to 50 percent of your paper consumption with the auto double-sided printing

Samsung Eco-Driver earned the 2012 "Outstanding Achievement" Award from Buyers Lab, Inc.

Save money the Eco way

Every business sees the need to cut costs wherever it can. With the one-touch Eco button and the smart Eco Driver it's easier than ever. Print more on each page with N-up and duplex functionality, change to Toner Save mode, skip blank pages or print in greyscale instead of full color. With the Results Simulator you can even see how much CO₂, power and paper you've saved.

Low power consumption

Despite its impressive list of features and functions, the C2670FW consumes less energy than most other models. Its innovative polymerized toner requires lower fusing temperatures, the instant fusing technology saves warm up time before first print, and our new dual-core CPU makes it one of the greenest devices around today.

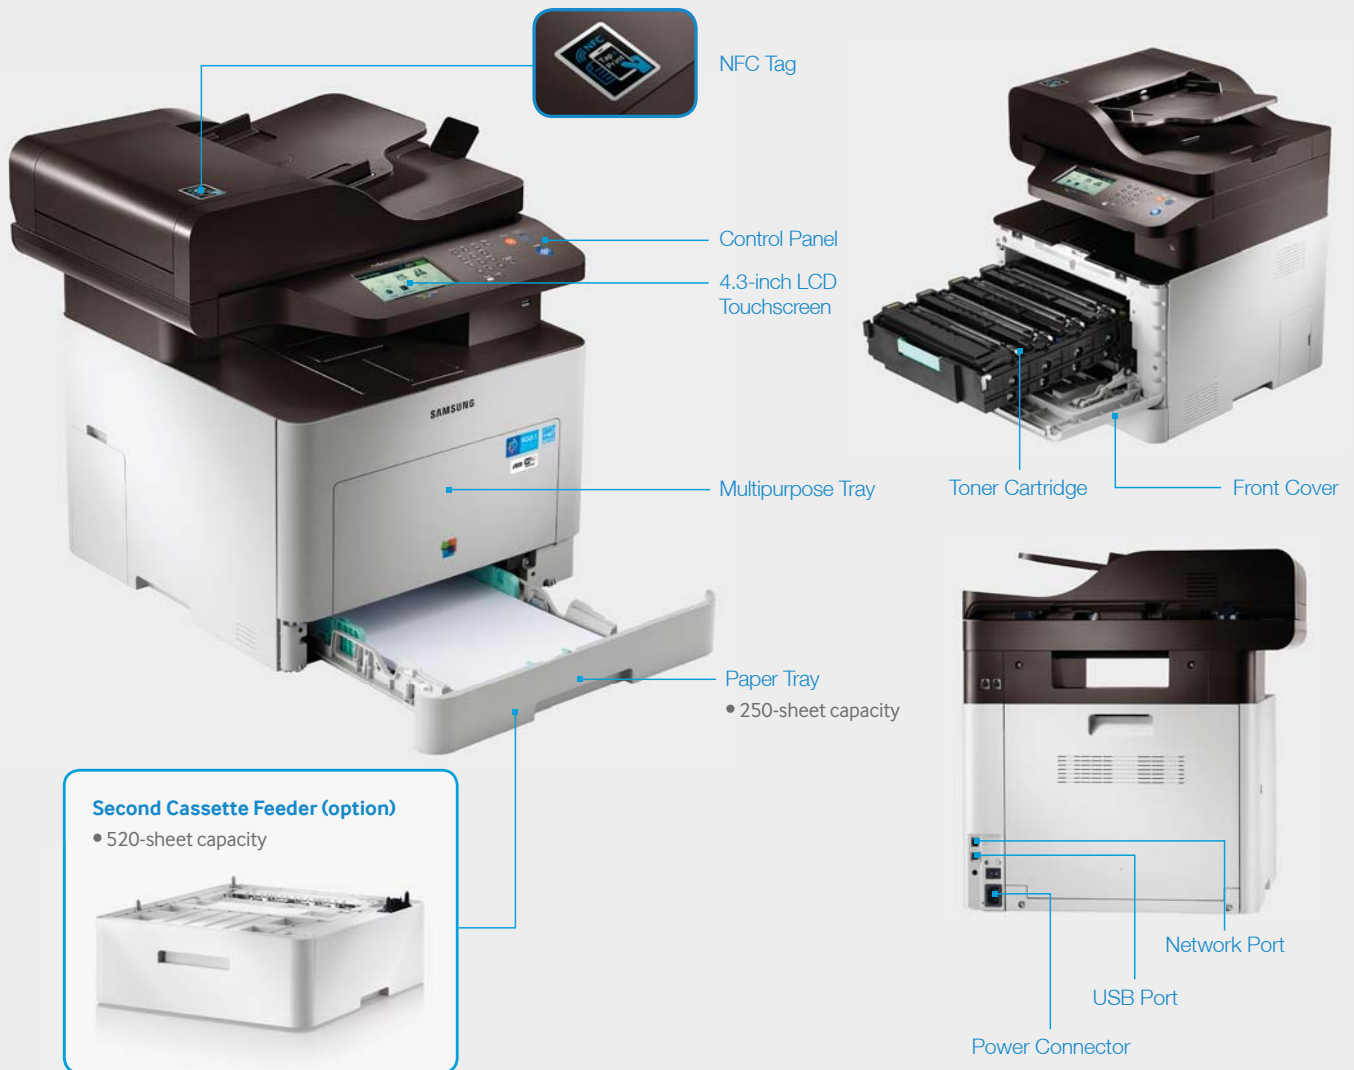

TAKE PRINTING TO THE NEXT LEVEL WITH THE SAMSUNG PROXPRESS C2670FW MULTIFUNCTION PRINTER

Choose the versatile C2670FW that works at the speed of business

Quality, speed and cost-efficiency

When you choose the C2670FW, you'll experience high-quality print output at the speed that today's businesses demand. With Samsung's innovative ReCP technology and up to 9,600 x 600 dpi effective output, your printouts will look good and so will you. A powerful dual-core CPU ensures fast processing to get you back to work quickly without waiting around for printouts. Top these features off with high-yield cartridges, duplex printing, Eco print options and low power consumption, and you have a printer that not only performs superbly, but lowers your TCO, too.
