

HP Windows Mixed Reality Headset VR1000-100nn

Stunning immersive computing is now within reach

Dive into the world of mixed reality and blur the line between real and digital. Designed to deliver cutting-edge visual quality and superb comfort, the HP Mixed Reality Headset with Controllers puts the magic of immersive computing within reach.¹

Seamless setup

With integrated motion tracking, a 2-in-1 cable that pairs HDMI 2.0 and USB 3.0, and compatibility with both Windows Mixed Reality and Windows Mixed Reality Ultra PCs, you go from out-of-the-box to total immersion without the hassle of setting up additional peripherals.

Immersion without boundaries

Get ready for a truly immersive experience thanks to 1440 x 1440 resolution per eye and up to a 90Hz refresh rate². Plus, liberate your movement with six degrees of freedom, no tracking boundaries, and included wireless motion controllers.

Incredibly comfortable

The perfect combination of comfort and convenience, this headset uses a double-padded headband, easy adjustable strap, and a front-hinged display for a superb experience even after extended wear.³

¹ HP Windows Mixed Reality Headset is not for children under the age of 13. All users should read the HP Windows Mixed Reality Headset User Guide to reduce the risk of personal injury, discomfort, property damage, and other potential hazards and for important information related to your health and safety when using the headset. Windows Mixed Reality requires Windows 10 Fall Creator's Update. Features may require software or other 3rd party applications to provide the described functionality. See <http://www.microsoft.com>. ² 90Hz refresh rate applies when headset is paired with a Windows Mixed Reality Ultra PC. All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower. ³ Extended wear only recommended with frequent use of the front-hinged display in the up position. See users guide for more information.
