INTRODUCTION

1. Introduction

This Document provides a compatibility and certification statement for Samsung's MFPs and their Device Types within SAP environments.

2. Samsung MFPs

Samsung MFPs offer both standard and optional hardware that is modular and scalable. This hardware addresses a wide variety of networks and printing environments. Samsung Devices include Multifunctional Printers (MFPs) that offer Print, Copy, Scan and Fax functions; Software solutions, Extensive security features, Color, Black and White, Tabloid format (11x17), and Legal format (8½x14).

3. SAP Device Type Pairs

Samsung is member of the SAP Printer Vendor program⁽¹⁾ and offers within this program connection software support for the Printer & MFP model /Device Type pairs listed in the following table.

The Samsung SAP device types table provides easy access to full functionality of Samsung Printers/MFPs such as

- Paper tray selections
- Output tray selections
- Orientation
- Duplexing options.

Samsung SAP Device Types can be downloaded from SAP site by registered SAP users.⁽²⁾

The device types are delivered in the SAP standard in the releases/support packages listed below.

Certain features of the device types become active only with the following releases and support package levels:

- Additional print options: (see SAP note 1049778)
 - SAP_BASIS 6.20 SP63 and higher
 - SAP_BASIS 6.40 SP21 and higher
 - SAP_BASIS 7.00 SP14 and higher
 - SAP_BASIS 7.10 standard
- Status feedback with SNMP:
 - SAP_BASIS 7.00 Enh1 and higher
 - SAP_BASIS 7.10 Enh1 and higher

⁽¹⁾ For general information about the SAP Printer Vendor program refer to SAP note 1130927.

⁽²⁾ For more information regarding Samsung device types refer to SAP note 1135104.

Table 1: SAP Supported Printer & MFP Model/Device Type Combinations:
