

Staying connected on the road has never been so easy

HP USB-C Mini Dock

What if you could...

- Recreate your primary office when you travel
- Easily connect to other devices in conference rooms or customer sites
- Charge your device while you work

For the mobile executive who needs to travel light while maintaining full productivity or the task worker who needs a simple, yet powerful entry dock solution for productivity, the HP USB-C Mini Dock is a convenient companion that provides power, data, video and Ethernet in one dock solution to amplify the HP notebook/mobility experience, as well as entry desk dock capabilities.

Integrated design for power, data & video

This solution provides the versatility of a dock on the go, enabling you to quickly expand your notebook capabilities with one cable to a full desktop experience. It offers a simple, plug & play for single 4K display, network, power and USB devices. It delivers pass-through to charge¹ your notebook PC or tablet when you connect its USB-C™ AC adapter to the dock's USB-C™ port. You also get the IT manageability features such as PXE, WoL and MAC Address Pass Through.

Do more and carry less

No need to worry about running out of ports in your notebook or losing dongles with this integrated solution for power, data & video. This single solution replaces multiple dongles for HDMI, VGA, RJ45 and USB hubs and supports a single external monitor. It also serves as a single power source for your notebook and personal devices (phone, earpiece, tablets, wearables, etc.).
