Please refer to the HP EliteBook 840 G5 Healthcare Edition Notebook user guide for instructions on cleaning this computer. Here are additional instructions for cleaning with specific germicidal wipes.

If there is visible soiling of the computer surface:

- First turn off the computer to prevent electric shock or damage to components.
 - Disconnect AC power.
 - Disconnect all powered external devices.
- Wipe the exterior of the computer with a soft, water-dampened cloth to remove the soil as needed.
 - The cloth should be of dry microfiber or a chamois (static-free cloth without oil), or static-free cloth wipes.
 - The cloth should be moist but not wet. Water dripping into the ventilation or other points of ingress can cause damage.
 - Please do not use fibrous materials, such as paper towels, as these can scratch the computer. Over time, dirt and cleaning agents can get trapped in the scratches.
- Allow the unit to air-dry before use or before additional cleaning with germicidal wipes.

If there is no visible soiling of the computer surface:

- Launch the HP Easy Clean software application that came with your computer. This will disable the keyboard, display, and clickpad. (Or you could alternatively choose to put the computer in Sleep mode or turn off the computer).
- Next, use any of the following germicidal wipes* to clean all exposed surfaces of your computer including the keyboard, display, clickpad, and chassis. (Refer to the directions for use provided by the manufacturer of the wipes):
 - Sani-Cloth® HB
 - Benzyl-C12-18-alkyldimethyl ammonium chlorides: <0.1%
 - Quaternary ammonium compounds, C12-14-alkyl[(ethylphenyl)methyl]dimethyl, chlorides: <0.1%
 - Sani-Cloth® Plus
 - Isopropanol: 10-20%
 - 2-Butoxyethanol: <5%
 - Quaternary ammonium compounds, C12-18-alkyl[(ethylphenyl)methyl]dimethyl, chlorides: <0.5%
 - Benzyl-C12-18-alkyldimethyl ammonium chlorides: <0.5%
 - Sani-Cloth® AF3
 - Quaternary ammonium compounds, C12-18-alkyl[(ethylphenyl)methyl]dimethyl, chlorides: <0.5%
 - Benzyl-C12-18-alkyldimethyl ammonium chlorides: <0.5%
 - Super Sani-Cloth® Germicidal Disposable Wipes
 - Isopropyl alcohol: 55.0%
 - Alkyl dimethyl benzyl ammonium chlorides: 0.250%
 - Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride: 0.250%
 - CaviWipes®
 - Isopropanol: 10-20%
 - Ethylene Glycol Monobutyl Ether (2-Butoxyethanol): 1-5%
 - Diisobutylphenoxyethoxyethyl dimethyl benzyl ammonium chloride: 0.1-0.5%
 - Clorox Healthcare® Bleach Germicidal Wipes
 - Sodium hypochlorite 0.1%–1.0%
 - Windex® Electronic Wipes
 - Cellulose: 10-30%
 - Ethyl alcohol: 0.10-1.00%
 - PDI Easy Screen® Cleaning Wipe
 - Isopropyl alcohol: 30-40%
 - Water: 60-70%

- Do not close the computer until you've allowed it to completely air-dry.
- Once the surface is dry, the computer is ready for use again. Depending on how you readied the computer earlier, either exit the HP Easy Clean software, remove the computer from Sleep mode, or turn the computer back on to start using your computer again.

Please do not use cleaners that contain any petroleum-based materials such as benzene or thinner. These may damage the notebook.

Sincerely,

* DISCLAIMER: Solutions tested as of February 8, 2018; chemical composition is subject to change. Repeated use of these germicidal wipes may cause some cosmetic changes to the product.
