

HP Stream Laptop 11-ah004na

Completely connected. Perfectly productive.

Designed for the always connected life, this nimble laptop lets you easily shift from homework workhorse to marathoning your favorite shows. With its portable design and powerful Wi-Fi antenna, it delivers the essential productivity and features you want, without ever slowing you down.

Wireless

The latest wireless technology

The improved 802.11 ac 2x2 Wi-Fi antenna delivers a stronger, more reliable Internet connection¹ than before, for buffer-free streaming, blazing-fast downloads, and smooth web surfing.

Versatile storage options

Easily store and access your files from the cloud with 100 GB of OneDrive storage for 2 years.² And with the USB and SD card ports, you can take advantage of an external hard drive or SD card.

Ultra-portable design

With a super thin, lightweight design, this laptop was never meant to stand still. It travels easily and comes in a vibrant, non-traditional color for a uniquely personal look.

¹ Wireless access point and Internet service required. Availability of public wireless access points limited. The specifications for the 802.11ac WLAN are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ac WLAN devices.

² The OneDrive free cloud storage offer is available for a limited time. Storage offer available for 2 years from the date you redeem. Check the activation card inside the package and see <http://onedrive.com/windows> offer for full offer.

³ Estimated Windows 10 battery life based on Windows 10 / MobileMark® 2014 benchmarking. Battery life will vary depending on various factors including product model, configuration, loaded applications, features, use, wireless functionality, and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See www.bapco.com for additional details.

⁶ Multi-core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
