

HP Desktop PC 460-a202nh

Affordable and reliable desktop tower

Conquer your day with the tested reliability, Intel® processor, and smaller footprint of this redesigned HP Tower. Finding an affordable tower with the performance you need and the name you trust just got easier.

Names you know. Performance you can trust.

From the Intel® processor to the Windows 10, these HP Towers are packed with reliable and proven technology from trusted brands.¹

Built-in Support

Keep your PC running smoothly with automatic software updates and personalized support from the built-in HP Support Assistant². Plus, enjoy the peace-of-mind in knowing you're covered with an HP standard limited warranty.

Built to last

When you're looking for a durable desktop that just doesn't quit, HP has you covered. We put every tower through over 100 tests, ensuring its trusted reliability³.

¹ Not all features are available in all editions or versions of Windows 10. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows 10 functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See <http://www.microsoft.com>.

² Must activate a HP Support Assistant account. Available only on Windows-based PCs and for select products in supported countries. For more information visit HPSA.

³ HP Total Test Process testing is not a guarantee of future performance under these test conditions. Damage under the HP Total Test Process test conditions or any accidental damage requires an optional HP Accidental Damage Protection Care Pack.

HP Desktop PC 460-a202nh

Featuring

HP Support Assistant

Included with your computer, this free self-help tool makes it easier than ever to get help with your HP PC and printers.

Dual display support

Add a second display for a more immersive computing experience. With dual monitors, you can increase your productivity, boost your gaming experience, or just make multitasking easier.

USB-C™

Power your device, transfer up to 5Gb/s of data, or connect to an external display all from just one USB-C™ port. And it's reversible, so you never have to worry about plugging in upside down.

USB 2.0 connector

With the world's most popular USB connection, you can easily connect any of your existing USB devices without worrying about compatibility.

HDMI out

It's never been easier to give your device a bigger or second display. With HDMI output you can transmit HD video and sound with just one standard cable.

Ethernet port

When you have a spotty wireless connection, you can quickly plug in your Ethernet cable to get a smooth, wired Internet experience that bypasses any wireless issue.

VGA

If you have an older display with only VGA connectivity, you can still use it as an external display. Simply connect it to your device with the VGA port and project your favorite content to the big screen without needing a modern display or adapters.

¹⁸ For more information visit <http://www.hp.com/go/hpsupportassistant>. (Link will vary outside of the U.S.) HP Support Assistant is only available on Windows-based PCs.

¹⁹ Internet connection required for updating and connecting to HP Support.

²⁰ Transfer rate may vary. All performance specifications represent the typical specifications provided by HP's component manufacturers; actual performance may vary either higher or lower.

²¹ USB Type-C™ and USB-C™ are trademarks of USB Implementers Forum.
