Easy to carry where the day takes you
Confidently carry this durable laptop with you knowing it’s built to last and made to travel. The slim yet durable HP ProBook 630 features an aluminum chassis, an 80-percent screen-to-body ratio, and a spill resistant keyboard.

Made for the enterprise
With an optional quad-core 11th Gen Intel® Core™ processor1,11, this globally available PC is easy to service, drives performance and has long battery life, and optional Thunderbolt™ docking11. The optional Opal2 SSD29 provides for highly secure storage for the enterprise.

Work with peace of mind
Security features from HP work together to create an always-on, always-acting, resilient defense. From the BIOS to the browser, above and below the OS, these constantly evolving solutions help protect your PC from threats.

HP ProBook 630 G8 Notebook PC

FOOTNOTES

1. Multicore is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel’s numbering, branding and/or naming is not a measurement of higher performance.

2. HD content required to view HD images.

3. Resolutions are dependent upon monitor capability, and resolution and color depth settings.

4. HP Sure View Gen3 integrated privacy screen is an optional feature that must be configured at purchase and is designed to function in landscape orientation.

5. Actual brightness will be lower with touchscreen or Sure View.

6. Due to the non-industry standard nature of some third-party memory modules, we recommend HP branded memory to ensure compatibility. If you mix memory speeds, the system will perform at the lower memory speed.

7. For storage drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 30 GB (for Windows 10) is reserved for system recovery software.

8. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited. The specifications for Wi-Fi 6 (802.11ax WLAN) are draft specifications and are not final. If the final specifications differ from the draft specifications, it may affect the ability of the notebook to communicate with other 802.11ax WLAN devices. Only available in countries where 802.11ax is supported.

9. WWAN module is an optional feature, requires factory configuration and requires separately purchased service contract. Check with service provider for coverage and availability in your area. Connection speeds will vary due to location, environment, network conditions, and other factors. 4G LTE not available on all products, in all regions.

10. Miracast is a wireless technology your PC can use to project your screen to TVs, projectors, and streaming.

11. Sold separately or as an optional feature.

12. Internet access required.

13. HP Fingerprint Sensor sold separately or as an optional feature.

14. Absolute firmware module is shipped turned off and can only be activated with the purchase a license subscription and full activation of the software agent. License subscriptions can be purchased for terms ranging multiple years. Service is limited, check with Absolute for availability outside the U.S. Certain conditions apply.

15. For full details visit: https://www.absolute.com/about/legal/agreements/absolute/.

17. HP Sure Sense requires Windows 10 Pro or Enterprise. See product specifications for availability.

18. HP Sure Start Gen6 is available on select HP PCs.

19. HP Sure Run Gen3 is available on select Windows 10 based HP Pro, Elite and Workstation PCs with select Intel® or AMD processors.

20. HP Sure Recover Gen3 is available on select HP PCs and requires an open network connection. You must back up important files, data, photos, videos, etc. before using HP Sure Recover to avoid loss of data. Network based recovery using Wi-Fi is only available on PCs with Intel Wi-Fi Module.

21. HP Secure Erase for the methods outlined in the National Institute of Standards and Technology Special Publication 800-88 “Clear” sanitation method. HP Secure Erase does not support platforms with Intel® Optane™.

22. HP BIOSphere Gen5 is available on select HP Pro and Elite PCs. See product specifications for details. Features may vary depending on the platform and configurations.

23. HP Client Security Manager Gen5 requires Windows and is available on the select HP Pro and Elite PCs.

26. Availability may vary by country.

27. Recharges the battery up to 50% within 30 minutes when the system is off or in standby mode. Power adapter with a minimum capacity of 65 watts is required. After charging has reached 50% capacity, charging will return to normal. Charging time may vary +/-10% due to System tolerance.

28. Not all features are available in all editions or versions of Windows. Systems may require upgraded and/or separately purchased hardware, drivers, software or BIOS update to take full advantage of Windows functionality. Windows 10 is automatically updated, which is always enabled. ISP fees may apply and additional requirements may apply over time for updates. See http://www.windows.com/.

29. Optional feature that must be configured at the factory.

30. Intel® Iris® Xe graphics requires Intel® Core™ i5 or i7 processor.

31. Intel® Optane™ memory system acceleration does not replace or increase the DRAM in your system. Requires 8th Gen or higher Intel® Core™ processor, BIOS version with Intel® Optane™ supported, Windows 10 64-bit, and an Intel® Rapid Storage Technology (Intel® RST) driver.

32. Wireless access point and internet service required and sold separately. Availability of public wireless access points limited. Wi-Fi 5 (802.11 ac) is backwards compatible with prior 802.11 specs.
