HP USB Fingerprint Mouse

Merging security and input into one smart mouse

Login to your PC without a password and navigate content accurately and quickly with the HP USB Fingerprint Mouse[1], our first mouse with an embedded fingerprint sensor that authenticates login within the mouse.

Security at your fingertip
After a one-time enrollment in your PC's Windows Hello[1], simply place your finger on the sensor for a quick scan and template match to log in each time without a password or PIN.

Built-in encryption
Lock down your fingerprint with a sensor that securely encrypts and stores its digital template inside the mouse and only transmits a pass or fail each time you login.[1]

Simple USB connectivity
Connect the mouse to any USB port on your device.

Fast navigation
Easily navigate documents and web pages with the high-performance laser and hyper-fast scrolling.

Intuitive and familiar design
Enjoy natural, comfortable left-or right-hand operation, and use the wheel on top as a third mouse button.

World-class support
Get a one-year limited warranty.

1. Connected PC requires Windows 10 and Windows Hello.

Specifications

HP USB Fingerprint Mouse

Part number	4TS44AA
Dots per inch (DPI)	Default 1200. Adjustable (800, 1200, 1600)
Connectivity	USB
