

HP Tech Café Market

Benefits:

- Provide immediate around-the-clock access to necessary accessories and supplies and eliminate downtime
- Reduce demands on IT staff and service desk
- Charge purchases directly to employee cost accounts
- Exchange devices in need of repair for temporary loaners
- Provide a safe location to stage devices for updates and charging

The anytime, self-service vending and storage solution

Empower your workforce to be tech-ready anytime and simplify IT support with HP Tech Café Market. It offers an end-to-end vending and storage solution for instant access to accessories plus 24 x 7 lockers for device swaps or repairs while managing the ordering, replenishment, and reporting for you.¹

Key features

Productivity grinds to a halt when employees have to wait on necessary supplies, or for IT to repair or replace a defective device. **HP Tech Café Market** eliminates unnecessary delays and empowers employees to help themselves, with immediate, self-service access to common supplies—from batteries and ink cartridges to mice and flash drives—even device exchanges via secure storage lockers.

Lighten the load on IT with a full-service vending solution

Take the stress out of managing accessories and supplies by letting HP do the ordering, inventory and replenishment for you.

With you every step of the way

Count on HP to get you up and running smoothly with an expert Project Manager to train you on software, hardware, and implementation techniques. A Service Delivery Manager will be your point person for your ongoing services and support needs.

Use analytics to stock, manage and spend wisely

Easily manage your company's accessory purchases and inventory levels. Stay informed with smart storage lockers that track usage and send instant notifications to both IT and staff.

Vending solution benefits

Customized vending accessories

Create the right mix of accessories for your employees with insights from analytics that track preferences and deliver personalized configurations for HP and non-HP accessories and supplies.

Easy procurement for employee purchases

Take the administrative steps out of employee supply purchases by enabling them to use their badge or cost location with HP Tech Café Market for quick grab-and-go experience while the IT department can track and analyze spending.

Locker system benefits

Instant, intuitive storage lockers

Reduce employee downtime by providing 24 x 7 access to smart lockers so they can drop off problematic devices, grab a loaner, and receive auto alerts when a device is ready for pickup. Now, IT can better service an increasingly mobile workforce.

Efficient and secure device transfer, anytime

Easily exchange shared devices between shifts and ensure your devices are charged and receive necessary updates—without a moment to lose—with lockers that have built-in security controls, power outlets, and CAT5 connections.

Support offerings

Your HP Tech Café Market is designed to fit your needs with a vending solution, locker system, or both, along with varying levels of management and support services.

Standard	Enhanced
Equipment, installation and implementation	Equipment, installation and implementation plus accessory procurement, replenishment and reporting fully managed by HP
<p>Key features of this plan include:</p> <ul style="list-style-type: none"> • Training • Hardware installation • Custom interior layout • Custom exterior design (skin/wrap) • Badge reader • Program management • User management database • Software operation, monitoring, updates, and report generation • Software user license (per deal) • Network servers, installation, and communications • Post-installation support • Software parts warranty • Accidental damage support 	<p>Includes all features of the standard plan, plus:</p> <ul style="list-style-type: none"> • Initial ordering and stocking of startup inventory • Order management and fulfillment/replenishment • Monthly transaction tracking and reporting service • Enhanced support management

ITSM Integration

HP Tech Café Market integrates with ServiceNow to automatically create service tickets, track assets, and report on inventory and out of stock alerts, all through one simple user interface. Our solution allows integration with customer ITSM, ERP or other systems.

Implementation

Getting started with the HP Tech Café Market involves HP performing the following actions:

- Create a statement of work (SOW) based on your business' unique needs
- Collecting requirements related to location, configuration, inventory, and user identification
- Design and build the final configuration
- Completing a survey to validate the site requirements
- Shipping all necessary materials from the factory and unpacking them at the site
- Installation, including electrical, signage, and network connection
- Training employees how to use the vending solution and/or lockers
- Providing IT support, including activation updates, maintenance, help desk, and more
