## Cloud printing for public print locations

HP PrinterOn Public cloud printing is specifically designed for public printing locations that want to provide a simple, secure cloud printing service to their customers. HP PrinterOn is an agnostic solution, so users can print from any device, any platform, on any network.

The flexibility, ease of use; and quick deployment of the HP PrinterOn Public solution is what makes it such a desirable choice for hotels, libraries, small businesses, and airport lounges. Choose from a variety of deployment options to suit your specific needs and bring convenient printing in a secure cloud environment to your organization.

<b>Product</b>	HP PrinterOn Public
<b>Offering type</b>	Cloud printing in a shared environment
<b>Service location</b>	HP PrinterOn Cloud
<b>Pricing</b>	Annual subscription per printer
<b>Use case</b>	For organizations who desire a cloud-based solution and want simple management with no print servers
<b>Ideal customer</b>	Best suited for hotels, libraries, airport clubs and some SMBs (small, medium businesses)

## How can I print?

### Mobile apps

Mobile printing apps for iOS and Android™ provide simple search and print functionality

### Email printing

Simply send an email with attachment to the unique email address of the printer

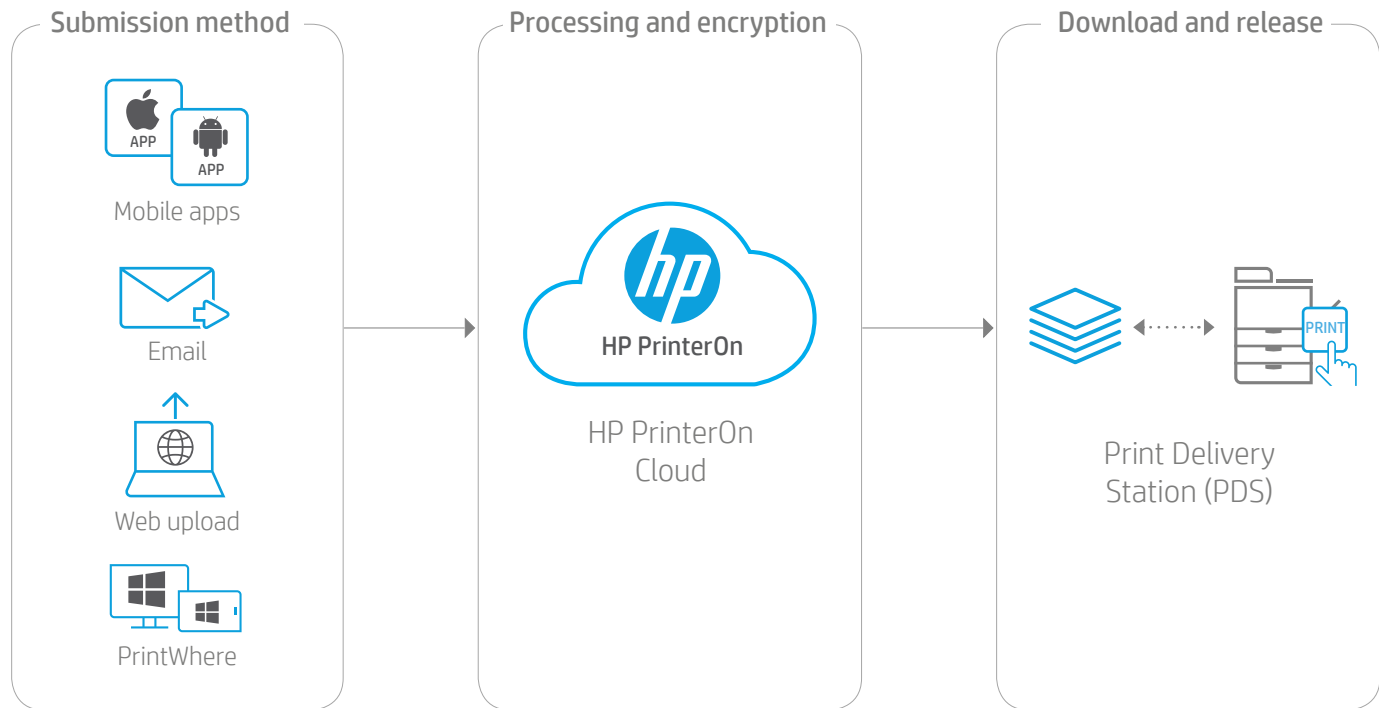

### Web upload

Documents can be uploaded and submitted for print via a secure web portal

### PrintWhere®

Provides File>Print workflow for Windows® PCs and tablets

# How does it work?

## Deployment and release options

### Deployment

#### Printer agent

HP PrinterOn cloud printing agents are available for certain printers through our strategic partnerships with specific manufacturers

#### Hardware

The HP PrinterOn PrintConnect™ device, connects to the local network or printer via USB adding cloud printing capability to any printer

#### Software

Print Delivery Station (PDS) installed on a Windows PC turns any printer connected to it into a cloud printer

### Release

#### Printer interface

Release documents directly through the user interface of our embedded printer solutions

#### Remote release

Users can submit and release documents from their mobile devices using the mobile apps

#### Keypad

The PrintValet™ keypad provides secure release capability for any printer

#### PC release

Documents can be released through a simple release client installed on any Windows PC
