

# HP PageWide XL 4100 Printer series

Do the work of two printers with one—faster and lower cost than LED<sup>1</sup>

## FAST

### Immediate, simple access to final prints

- Don't waste time waiting for prints with speeds up to 10 D/A1 pages/min and a fast 30-second first page out.
- Gain reassurance that the print will turn out as you expect with one-click printing from HP Click.<sup>2</sup>
- Anyone can copy and scan with intuitive multifunction workflows, including automatic background removal.<sup>3</sup>
- Focus on your project, not the printer with up to 4 rolls and integrated 100-page top stacker.

## SAVE

### Help keep costs under control

- Run at lower costs than low-volume LED<sup>1</sup> in monochrome and color.
- Gain broad control over your printing costs and turn them to your advantage with HP SmartTracker software.
- Use half the energy per page compared to equivalent LED printers.<sup>4</sup>
- Secure data and help cut breach-related costs—self-encrypted HDD, Secure Disk Erase, and role access control.

## CONSOLIDATE

### Mono and color printing in one

- Improve manageability and simplify your workflow with one device for mono and color.
- Help meet all your needs, from job preparation to finishing, with a fully integrated HP solution.
- Produce excellent technical prints—vivid color, crisp lines, fine detail, smooth grayscales that beat LED.<sup>5</sup>
- Work with durable—moisture/fade-resistant—prints, even on uncoated bond, with HP PageWide XL pigment inks.<sup>6</sup>

reddot award 2016  
best of the best

Dynamic security enabled printer. Only intended to be used with cartridges using an HP original chip. Cartridges using a non-HP chip may not work, and those that work today may not work in the future. More at: [hp.com/go/learnaboutesupplies](http://hp.com/go/learnaboutesupplies)

**Note:** HP PageWide XL printers are not designed to use continuous ink systems. HP PageWide XL printers are designed for ink cartridges to be used until they are empty. Refilling cartridges prior to depletion might cause the printer to fail, and voids the HP ink cartridge warranty.

<sup>1</sup> Fastest based on alternative low-volume LED printers and MFPs (under 7 D/A1 pages/minute) as of November, 2018. Operational costs based on low-volume LED technology under \$20,000 USD in the market as of November, 2018. Operational costs consist of supplies and service costs. For testing criteria, see [hp.com/go/pagewidexlclaims](http://hp.com/go/pagewidexlclaims).

<sup>2</sup> Once image is selected, one-click printing when printing the entire file without any modifications to the print settings. Applicable to PDF, JPEG, TIFF, and HP-GL/2 files. HP PageWide XL PostScript/PDF Upgrade Kit required for HP PageWide XL 4100 series printers.

<sup>3</sup> Multifunction capabilities are available on the HP PageWide XL 4100 Multifunction Printer only.

<sup>4</sup> Conclusions based on internal HP testing for a specific use scenario. Comparable printers using LED technology based on LED printers capable of printing 4-6 D/A1 pages per minute and which represent more than 80% of the share of mid-volume LED printers in the US and Europe according to IDC as of November, 2018. For testing criteria, see [hp.com/go/pagewidexlclaims](http://hp.com/go/pagewidexlclaims).

<sup>5</sup> For output produced with HP PageWide XL printers and LED printers from different manufacturers and that represent greater than 50% of the annual shipments of LED printers in North America as of 2018 according to IDC. For testing criteria, see [hp.com/go/pagewidexlclaims](http://hp.com/go/pagewidexlclaims).

<sup>6</sup> Compared to prints produced with HP 970/971/980 inks that are fade and moisture resistant per ISO 11798 Permanence and Durability Methods certification. For testing criteria, see [hp.com/go/pagewidexlclaims](http://hp.com/go/pagewidexlclaims).
