# HP PageWide Web Press T300 HD Color series

Outstanding quality, economics, and productivity

**Build a competitive advantage with outstanding quality and amazing economics.**

**The HP PageWide Web Press T300 HD Color series delivers outstanding image quality and enhanced productivity in a platform that's ideal for your publishing business. Expand into new applications with added versatility and breakthrough economics.**

## Outstanding image quality on a broad range of applications

HP High Definition Nozzle Architecture (HDNA) completely raises the bar in digital color quality, using 2400 nozzles per inch native resolution and dual drop weight to deliver image detail like never before. The result: image quality ideal for demanding applications in publishing, direct mail, and commercial print.

- See outstanding image quality with smooth skin tones and incredible shadow detail with HP HDNA's 2400 nozzles per inch native resolution and dual drop weight
- Produce top notch results with continuous alignment—the press continuously monitors and actively adjusts color-to-color registration to provide consistent quality throughout a run
- Deliver uncompromising color consistently with HP's set of on-press and pre-press color management tools, including the HP SmartStream Color Studio
- Maximize your press's production availability with easy, automated quality control features. The HP PageWide Web Press T300 HD family provides multiple ways to check quality during a print run, including the optional HP Quality Image Check Vision System, which monitors nozzle health by selectively comparing the RIP output to the printed image.

**COLORPRO**  
TECHNOLOGY

## Exceptional productivity with HP HDNA technology

Take on more jobs and print them faster with unprecedented color digital performance on a 30-inch platform—enabling profitable short- and mid-run jobs. Revolutionary HP HDNA delivers reliable printing at amazing speeds, producing over 367,000 pages per hour in full color Performance mode.<sup>1,3</sup>

- Accelerate your performance and meet demanding turnaround times with incredibly fast productivity in Performance<sup>1</sup> and Quality<sup>2</sup> modes
- Make easy work of high production volume with a duty cycle of up to 148 million images per month<sup>3</sup>
- HP HDNA thermal inkjet technology with 8X nozzle redundancy delivers reliable production quality
- Multi-roll printing with optional zero speed splicer enables profitable high copy count production runs
- Provide mass customization—make every page unique and print at full press speeds with HP SmartSteam Elite Production Print Server

## Grow your application and business reach

This publishing-focused platform provides greater versatility for more profitable printing on a wide range of applications and media types. User-selectable Performance<sup>1</sup> and Quality<sup>2</sup> modes allow flexibility to produce jobs that drive business growth.

- The 30-in web width enables efficient production of signatures, full-broadsheet formats, or multiple-up documents across a range of applications
- Produce high-quality prints on every category of media, including matte and gloss offset coated media with HP Priming Agent and offset uncoated media with HP Bonding Agent
- Greater choice—work with a broad range of HP ColorPRO Technology enabled and compatible inkjet papers
- Configure dryer capacity for your printing application requirements

## A smart investment with amazing economics

The HP PageWide Web Press T300 HD Color series delivers high productivity at a competitive cost on a variety of media options. Experience low-cost, low-maintenance performance with reliable HP pigment inks and printheads. With HP's proven track record of upgrading existing customer presses, you can benefit from technological advances and new functionality with this smart investment. Existing HP customers are also invited to upgrade their current web presses to HDNA.

- This solution reliably delivers quality suitable for a broad range of applications with attractive economics
- Upgradable solution grows with your business—upgrade to faster speeds, more drying capacity, more DFE processing power; get what you need today and scale capacity as your business grows
- Upgrade ramp-up support to boost productivity; business development support helps fuel business growth

## Reinvent your operations and business

HP PrintOS is an operating system for your business—an open, secure cloud-based platform that helps you get more out of your HP PageWide Web Presses and your print production operations. Leverage HP PrintOS applications to increase efficiency, make better-informed decisions, innovate, collaborate, drive growth—and increase profitability.

<sup>1</sup> Performance mode delivers high quality using single (or high) drop weights.

<sup>2</sup> Quality mode delivers the highest quality using dual drop weight nozzles.

<sup>3</sup> US letter-sized equivalent images.

## Eco highlights

- Reduce waste with digital on-demand printing
- Water-based HP inks—no hazard warning labels; no HAPs intentionally added; non-flammable and non-combustible\*\*
- Very low VOC emissions\*\*\*
- Free and convenient printhead recycling;\*\*\*\* ink drums are material recyclable
